The wheat crop of Collin county, Texas, has been harvested, and that which has been threshed averaged twelve to fifteen bushels per acre.

George Portman, an old citizen living near McKinney, Texas, was found dead on the prarie in the northern portion of the county, last week.

The French wine crop will be good; also apples and turnips in New Jersey; showing a probable reduction of the cost of brandy and champagne.

Sun strokes are all the rage now, and the papers from every city have long lists of them. Pittsburgh seems to have fewer than any other place.

*California papers are regretting the quarrel which recently resulted in the withdrawal of the Pullman palace cars from the Central Pacific Railroad.

Two men were seriously injured in Louisville on Wednesday night by the fall of one of the walls of the Boone brewery during the heavy wind storm.

In an infirmary at Cleveland there is a man who for eighteen day refused to take a bite or sup, and then suddenly became hungry and ate a substantial supper.

An agent of the Australian Emigration Company is in Portland, Oregon, seeking lands for a colony. He wants lands for five hundred families.

America should be proud that one of her Congressmen has at Saratoga a gambling saloon that is said to surpass in magnificence all the renowned hells of Europe.

Grasshoppers are ruining the Erie county crops. We know of no remedy for this pest but turkeys, whose power of *yanking* them off sweet potato vines is widely known.

The Rochester (N. Y.) *Express* states that Fred. Douglass is the ablest and most widely known man in that Congressional district, and suggests that he be elected to represent it.

The other day, a cow near Knoxville, Iowa, pushed its tongue through the crack of a log stable to steal some hay, a horse was eating. The indignant equine grabbed the tongue and bit it off.

Robert T. McGlaughlin who drew the $130,000 prize in the Henderson Land lottery, is a Pennsylvanian by birth, and was a soldier in the Mexican war. He was a poor farmer the day before he drew the money.

While Napoleon and Bismarck fight their battle royal, that other one of the three grey sisters, Von Beust will not have his eyes closed, but will, doubtless, manage to pick up an advantage or two for Austria.

Judge Jeremiah S. Black has returned home from Texas, where he has been conducting a law suit for which he received a fee of $1,000 per day for every day he was engaged, which amounted to about $30,000.

A Milwaukee German named Rudolph Metzer, while moving a dining table discovered $350 in half eagles in one of the legs. A hole had been bored to admit the coin. He purchased the table some eight years ago of a second hand dealer.

Bachelors have a new dignity in Georgia. The Supreme Court of that State has decided that a bachelor is a "family," and, being so, he is, of course, the "head of the family," and as such is entitled to the privileges of the Homestead act.

Fifty soldiers went out from Jacksonboro' Texas, last month, on an Indian scout. They got as far as the Wichita, where they met with a large body of redskins, and were whipped and driven back in confusion. Two citizens and a soldier were killed.

A neat fifty cent joke—cheap at half the price—is the following from *Punchinello*: "Where do you intend to summer?" asked Jowler to Growler, one day in the heated term "Summer?" retorted Growler—"is that what you call it? I call it Simmer."

Dogs have a connection with literature in Lowell, Mass. After the value of sheep or any other animals killed by dogs has been deducted from the proceeds of a dog tax, the residue is used for the City Library. Last year the net result thus devoted was $1,350.

Robert Rascal, charged with attempting to murder his wife by beating her with rocks until she was insensible, and then attempting to throw her into the river, was tried at Madison, Indiana, on Wednesday and fined $100 and sentenced to the penitentiary for ten years.

The French declaration of war referred to the battle of Jena, and states that the victors still survive. This is a curious assertion, as besides the lapse of time, there have also intervened Leipsic and Waterloo, a combination, quite sufficient, one would think to have pruned off survivors well.

The Van Wert Ohio *Bulletin* says: "A few days ago, we met at the depot, General Coe, of Hoaglin township, this county. He informed us that he was born on the 4th of July, 1776, and served in the war of 1812, engaging in several battles and skirmishes. For the first time in his life, this old hero was about to take a ride on a railroad car."

During the progress of a game of base ball at Milton on the Fourth, Cheney, the catcher, and Newberry, the pitcher, in endeavoring to head off a flying ball, came together with such force as to prostrate both. They lay upon the ground some length of time insensible, Newberry bleeding at the mouth and nostrils from an internal injury. The accident stopped the playing for half an hour, when their places were filled and the game went on.

The Chinese in California make gold dust out of silver half-dollar pieces, by cutting up the silver coin into particles which resembles in shape the gold dust in the streams. This is then colored to resemble gold and is mixed with genuine gold dust. How the yellow color is put upon the silver is a Celestial secret. The profit of the business must be great as two silver half dollars make almost an ounce of gold dust worth about eighteen dollars.

A horse attached to a barouche in Cincinnati, in which were Judge Headington and two ladies, became terrified and ran off on Friday evening. The Judge was thrown out at the first plunge and kicked twice on the head, fracturing his skull, besides being seriously injured in the chest. The barouche finally collided with a buggy, containing a lady and gentleman and both vehicles were overturned, but the only other person injured was Mrs. Huston, of Baltimore, who was badly bruised and had her left wrist broken.

The Portland *Press* gives currency to a funny incident which occurred in that city a few days since. It seems that an Irishman, living at the North End, is possessed of a wife whose fondness for the "craythur" is inordinate. On the morning in question she purchased a leg of lamb for dinner, and putting it in the oven to bake, she turned to get some wood, when pussy, who had stood with longing eyes on the meat, jumped into the open oven. The woman, not perceiving her cat, closed the oven door, and proceeded in the discharge of her accustomed duties. Tabby cried, but Biddy could'nt find her, and during the forenoon the woman imbibed too freely of her favorite beverage and became oblivious to all about her. Pat came home to dinner, the dish of meat was set before him, which he pronounced *rabbit*. His wife asserted it was lamb, but Pat turned it over, and discovered, to his horror, the hair of poor pussy. A scene ensued, in which Biddy was summarily sobered.

A clever impostor has at length been exposed, as will be seen by the following notice, dated at Tunkhannock, Pa., July 8th:

A man by the name of E. H. Warner, professing to be a minister, a physician and a dentist, late from Texas, having fled therefrom with his family to save their lives, the wife and children stopping at Alexandria, while he came north to get means to bring them north, has been traveling through parts of the East Genesee and Wyoming Conference professedly endorsed by a number of our ministers lecturing, preaching, practising medicine, and dentistry, and raising money thereby. He is a well dressed and good looking man of about fifty years of age, and so well skilled in the several arts practised, as to be able to deceive "the very elect." After a careful effort to secure of Methodist ministers in Texas information concerning said Warner, not a word, recognising the existence of such a man, has been obtained. And from other evidence which has recently come to us, we are forced to believe that we have been most grossly imposed upon, that the said man is one of the best executed counterfeiters out of State Prison. His power to deceive is beyond description; he can pray or weep, be a saint or martyr, just as best suits his purpose. We believe him a deceiver and a very dangerous man, whose word is false, whose designs are dark, and men and women everywhere are warned against him as an unscrupulous villain. De Witt C. Olmstead, P. E. Wyoming district; Samuel F. Brown, pastor M. E. Church, Tunkhannock.

Offenbach is making an opera upon Lady Godwin.

Russia doesn't say much, but her 566,491 new breech loaders and her half a million cartridges per day factory entitle her thinking to importance.

It is thought that the explosive bullet may give France as much advantage over Prussia, as the needle gun gave the latter power over Austria in 1866.

The poet Freiligrath celebrated his sixtieth birthday on the 17th of June. He is at present with his family in Bregenz, on Lake Constance, and is preparing a collected edition of his works for publication.

A slight fire recently took place in the clock-tower of the Parliament House in London, caused by the ignition of the quantity of cocoanut fibre, four tons, kept on the floor "to deaden the fall of the clock-weights, if such an accident should occur."

The governor of the workhouse in Pleasington, England, recently ordered a lad named John Barring to be "ducked" for soiling his clothes. He was ducked so thoroughly that he was drowned, or, as the coroner's jury hath it, met "death by misadventure."

France has 119 fortresses, of which eight are of the first rank: Paris, Lyons, Strasbourg, Metz, Lille, Toulon, Brest and Cherbourg. The fortifications of Paris are stated to have cost $40,000,000, and up to 1868 there had been expended on Cherbourg $34,000,000.

By a Roman Catholic authority we are informed, says the London *Daily News*, July 2, that Cardinal Antonelli has just married one of his nephews to a Spanish lady of fortune, and has proved himself equal to the occasion by bestowing on the happy pair the sum of 5,000,000 francs, or £200,000 sterling.

When Marshal Saldanha was Portuguese Ambassador at Rome, Cardinal Antonelli made some inquiries about the state of affairs in Portugal. Saldanha frankly replied: "Eminence, it is not to flatter you and me, but I am the Antonelli of my kingdom, and when I am absent everything goes wrong."

A young man in London, named Blyth, who has just attained his majority, indulged, a year or more ago, an extravagant propensity for buying expensive jewelry, and purchased about $42,000 worth on credit. After one half had been paid it occurred to him that the rest might be saved by pleading "infancy" at the time the goods were procured. Upon referring to the items, however, the court and he were not of one mind, and a complete discharge of the debt with costs of action added is to be the reward of his dishonesty.

The French army is divided into seven army corps. The headquarters are as follows: 1. Paris; Commander-in-Chief, Marshal Canrobert. 2. Lille; Commander-in-Chief, General of Division De Ladmirault, Senator. 3. Nancy; Commander-in-Chief, Marshal Bazaine. 4. Lyons; General of Division Cousin Montauban, Count de Palikao. 5. Tours; Commander-in-Chief, Marshal Count Baraguey d'Hilliers. 6. Toulouse; Commander-in-Chief, vacant. 7. Algiers; Commander-in-Chief, Marshal McMahon, Duke of Magenta.

Le Gaulois announces that Christine Nilsson has lost her voice! Before she left Paris she noticed painful defects in that exquisite organ; it was only with the greatest effort that she attained to the elevated notes of delicate clarity which have made her distinguished. The fatiguing trip to England developed the germs of her malady. For a fortnight her hoarseness was thought to be simply a transient thing. But she rapidly grew worse, and the best physicians of London have been forced to confess that the Swedish nightingale will sing no more.

Catholics are excited over the conversion, in St. Petersburg, to the Orthodox Greek Church of an American Catholic, Father Bioering, once professor of theology in the college at Baltimore. Before leaving this country he protested in a very remarkable letter, against the council and the doctrine of Papal infalibility. Upon his arrival in Russia he applied for admittance to the pale of the Greek Church, was regularly ordained, and will soon found a congregation in New York. He recently celebrated mass in the Ecclesiastical Academy before an assemblage of the most distinguished Russian nobles.

A most singular will has just been opened in Venice. A rich old bachelor has bequeathed his entire fortune to a distant relative, a very pretty young lady, 19 years of age, and not left a shilling to all his nearer relations. So far there is nothing singular about it. But it happened that the testator had been endowed with a fearful hump on his back and a clump foot. Now he puts the condition that she must marry a man endowed with similar ornaments if she wishes to touch the estate. The rightful heirs are contesting the validity of the will, saying that no sane man could put such a condition.

The arrival of the author of Lothair at Windsor Castle on the occasion of the late State breakfast, is thus spoken of by a newspaper correspondent: "Poor Mr Disraeli and his wife, the Countess of Baconsfield, were among the first to arrive, and had to put up with a small open hack carriage, which had but a very sorry hood over it. Fortunately, the author of Lothair (by the way, what a financial success, but what a social blunder that book has been—his best friends hate him for it) had with him a large water proof coat, by which his wife and himself covered themselves from the rain as well as they could."

The director of a French provincial theatre has dispensed with the *claque*, the hired applauders so necessary in a French theatre, although very expensive. By means of a most ingenious piece of mechanism he has constructed a mechanical *claque* under the floor of the parquet; there are four sets of hammers, which imitate the noise made by canes of gentlemen, and at distances there are pairs of *castanetes*, that produce at exact imitation of the clapping of hands, when they strike together by means of a spring. The apparatus is set in motion by a cord terminating in the office of the manager, and the noise enters the hall by means of openings under the chairs. When he deems proper, the manager can applaud the piece very conveniently, and carry the audience along.

A writer in a Cologne (Germany) newspaper mentions a curious change in the population of Bohemia, which he says has been partly caused by the continually increasing immigration of the Germans to America. The German element is disappearing from all parts of Bohemia, and the Czechs are rapidly taking the place of the Germans. From year to year less German is to be heard in Prague, and in many villages where a Bohemian word was not to be heard twenty years ago, the Slavonic has now all but supplanted the German idiom. The same writer remarks that a similar phenomenon may be witnessed in the Southern Tyrol, where the Italian element is advancing every year, and the German is receding or becoming Italianized. It would seem that, in impressing himself on American life, the German is losing his foothold in some parts of Germany.

During the whole of Thursday (says the London *Daily News*, July 2), up to an early hour yesterday morning, great excitement prevailed at Womwell, near Burnsley, owing to an accident which took place at the Deerfield Main Colliery, by which the whole of the men, 300 in number, were confined in the pit for upward, of seventeen hours. It appears that about nine o'clock on Thursday morning the cages in the colliery came into collison in the shaft, so that no person could ascend or descend. On some of the men at the top going down to where the obstruction took place they found the chair broken and the conductors smashed to peices to the extent of some twenty or thirty yards. A number of them were at once set to work to clear the obstruction, but it was not until about 10 o'clock at night that the broken cages were removed and a new one got ready, when the men were safely drawn to the top, a distance of 335 yards from the bottom.

Mr. Lynch, dry good merchant, Henry Fredenburgh, and two young girls, Misses O'Brien and Rock, were all on or near the walk at the time. While Fredenburgh was trying to assist the young ladies from danger, part of the walk struck them, so injuring Fredenburgh that he died in two hours. Miss O'Brien was so badly hurt that she could not long survive, and the other two were slightly hurt.

FIRST EDITION.

MIDNIGHT.

THE CAPITAL.

[By Telegraph to the Pittsburgh Gazette.]
WASHINGTON, July 18, 1870.

FOREIGN MAILS STOPPED.

All the North German steamship lines have ceased running. Our foreign mails are stopped in Baltimore and New York. Postmaster General Cresswell is now engaged in effecting a temporary arrangement with the Cunard and Inman lines of steamers to carry our mails. Several American parties have put in propositions to carry mails in vessels under our flag. These will receive proper consideration at once. In the meanwhile it is thought certain that our mails will be carried by English lines.

ANTICIPATED INTERRUPTION OF COMMERCE.

Gustave Schwab, managing member of the North German Lloyds steamship line, has arrived here to consult with the authorities as to whether some steps cannot be taken to prevent the interruption of commerce between this country and North German ports. Schwab had an interview with Secretary Boutwell, among others, and endeavored to impress the the necessity of urging upon the President the propriety of calling an extra session of Congress, with a view to meet the emergency by some appropriate legislation. Schwab also had an interview with Baron Gerolt, Prussian Minister, but what transpired has not leaked out. It is understood, however, that the Baron succeeded in persuading Secretary Fish to send a dispatch to Minister Washburne, instructing the latter to ask the French Government to permit German steamers carrying United States mails to proceed on their voyages free from attack, and to stop at any ports not under actual blockade. Secretary Fish has, in fact, sent a strong note of this kind to Minister Washburne, but it is believed that it will have but little effect upon Napoleon.

The government should have some younger and more vigorous representative than Baron Gerolt sent to this country during the present crisis. Gerolt is regarded as too slow and feeble for such an emergency as the present. It is said that Secretary Fish also instructed Minister Washburne to offer protection to the Prussians in France, for the reason that many of our naturalized citizens came from Prussia, and that the Prussian government has no representative in Paris.

The Government will be urged to provide for the transportation, under a neutral flag, of the Brest and Southampton mails, which have recently been carried by the steamers of the North German Lloyds, Hamburg-American Company, and the Compegne Generale Trans-Atlantic.

ANXIETY FOR NEWS FROM EUROPE.

Very few dispatches have been received here from Europe by gentlemen in Diplomatic and American official circles, and therefore reliance is chiefly made on those of the Press relative to war. The new French Minister has received no cable telegram since his arrival in this country. The anxiety for intelligence from Europe is particularly manifest among the Diplomatic Corps, some of whom await with impatience official advices by mail from their respective governments, which it is said will not be trusted to the ocean cables, fearing that even cypher messages may find their way into unfriendly hands.

UNFOUNDED REPORTS.

Inquiries have been received from New York and elsewhere as to the truth of telegrams sent hence to private parties, one of them asserting that Admiral Porter recommends the enlistment of 18,000 seamen and the immediate placing of the navy on war footing. It is certain that he has made no such recommendation to either the President or Secretary of the Navy, nor has he even suggested to them such action in view of European events. Equally untrue is the dispatch that the President is being urged to convene Congress at an early day to legislate accordingly.

GENERAL EUROPEAN WAR.

Secretary Fish and Secretary Boutwell had interviews with the President last evening. All agree that there will be a general European war. Boutwell is of the opinion that it will be precipitated on us. The President is known to be averse to calling Congress together, but said last evening that it looked quite probable that contingencies might soon arise that would necessitate him to do so.

THE PUBLIC LANDS.

The Sundry Civil Service Appropriation bill, as reported from the Conference Committee and passed both Houses, contains provisions that the public lands which have been withdrawn for any reason and afterward restored shall thereafter be subject only to homestead and preemption entry.

THE EFFECT OF THE WAR.

It does not appear that any one connected with our government fears any disaster will happen to our country apart from the effect of the war upon our shipping, or that we can become involved in a European war, there now being nothing to excite such fears.

MAILS BY THE CUNARD LINE.

Postmaster Jones has received a telegram from Postmaster General Cresswell instructing him to send the German mails by the Cunard line, and all mails until further notice will be taken in the same manner.

NEW YORK CITY.

[By Telegraph to the Pittsburgh Gazette.]

DESIRE TO RETURN.

NEW YORK, July 18, 1870.

A large number of Germans lately arrived in this country, who, not being citizens, are liable to military duty in their own country, have called at the office of the Prussian Consul and expressed their willingness to return. Bismarck has been telegraphed to.

STEAMER SILESIA WILL LEAVE.

The agents of the Hamburg-American Steamship Company announce they will dispatch the steamer Silesia to-morrow at her usual hour. The Silesia will touch at some point in Ireland or Great Britain.

INCREASE OF NAVY TO A WAR FOOTING.

A dispatch from Washington says Admiral Porter recommends the enlistment of 18,000 seamen, and the immediate placing of the navy on a war footing. The President is being urged to convene Congress at an early day to legislate accordingly.

INDIANA.

The Political Campaign Inaugurated—Address by Senator Morton.

[By Telegraph to the Pittsburgh Gazette.]

Terra Haute, Ind., July 18.—The first important Republican meeting in this State campaign was held at the new wigwam in this city to-night, and was addressed by Senator Morton. He spoke extemporaneously, having had no time for preparation since his return from Washington. His speech was mainly a review of the Republican party under Grant's administration, as compared with the administration of President Johnson—showing the increased efficiency of the revenue service, the greater amount collected under the same laws, and the efforts of Congress and the administration to lighten the burdens of taxation by a large reduction of the tariff and Internal Revenue. He also alluded to the management of State affairs, showing how successfully the Republican party had conducted the finances and liquidated the debt. There was a very large audience present, including Governor Baker, the officers of the State, and many distinguished citizens from various localities.

The Republicans regard the meeting and the speech as a most successful inauguration of the campaign.

Trouble in North Carolina—Arrests by the State Militia.

[By Telegraph to the Pittsburgh Gazette.]

Raleigh, N. C., July 18.—Commander Kirk, of the State Militia, arrested Friday several citizens of Allamania county, and on Saturday Chief Justice Pearson granted a writ of *habeas corpus* on behalf of the prisoners, which was served on Kirk. He, however, refused to obey, saying, "That sort of thing is played out." The charges against the persons under arrest have not been made known; there were no warrants sworn out against them. They are among the first citizens of this county. Trouble is anticipated.

An injunction will be sued out to-day forbidding the Treasurer to pay money from the Treasury for the State troops. There is no insurrection or resistance to civil law in the State.

Base Ball at Cincinnati—The Harvards vs. Red Stockings.

[By Telegraph to the Pittsburgh Gazette.]

Cincinnati, July 18.—The game of Base Ball between the Harvards and Red Stockings excited much interest. But for the injury to Goodwin, the Harvard "pitcher," in the last inning, it is probable the Red Stockings would have been defeated. Goodwin was struck by a ball and knocked down. He pitched through the inning and then fainted. He is not seriously hurt. Score:

Harvards—3, 0, 4, 3, 7, 0, 0, 0,—Total 17.
Red Stockings—4, 0, 5, 0, 0, 2, 0, 1, 8,—Total 20.

The Harvards will remain and play the Mutuals on Wednesday.

The Georgia Legislature.

[By Telegraph to Pittsburgh Gazette.]

Atlanta, Ga., July 18.—In the House today a communication, in writing, was received from the Governor, stating that unofficial information had been received to the effect that Congress had passed a bill admitting Georgia to representation in Congress, and that until the meeting of Congress in December the State would remain under the supervision of military, but that General Terry would allow the Legislature to go on with the enactment of laws. The majority and minority reports of the Bullock-Angier Committee were reported and laid on the table. It is the general belief of all parties that an election will be held this fall.

New Orleans.

New Orleans, July 18.—Flour firmer; superfine $5.40; double extra $6; triple extra $6.25@6.50. Oats 64@65c. Bran 90@95c. Hay $23 for prime. Pork held at $31.50@31.75. ST. LOUIS.

German Meeting to Express Sympathy with Prussia—Address and Resolutions Adopted—$1,000,000 to be Raised in the way of Practical Sympathy—Strong Letter from B. Gratz Brown.

[By Telegraph to the Pittsburgh Gazette.]

St. Louis, July 18.—The German meeting to express sympathy with Prussia in the struggle about to commence between her and France was one of the largest ever held here. National airs were played by the bands, national songs sung by the crowd and the enthusiasm was very great. After speeches by Dr. Hammer, Emile Pretorious, Carl Doenger and several others, which abounded in denunciation of Napoleon and praise of King William, Bismarck and the German nation generally, the following address was adopted to the German nation:

"The desperate gambler on the French throne, under contemptible pretexts, has commenced a war of suppression and conquest against Germany. The times of Melac and Napoleon the First are threatening once more. Yours is a struggle for the independence of all nations and for your own national life. Your defeat would dismember the German fatherland and make it a dependency of France. Your victory secures Germany's unity, and with that her liberty. Your triumph would even liberate France. It is with pride and joy that we hear of the German people north and south rushing to arms for their country as one man. Firmly confiding in your patriotism, your strength and your perseverance, we expect glad tidings of victory for the holy cause of the land of our birth."

Resolutions were unanimously adopted that the Germans of the United States, in order to express their sympathy in a practical way, will raise a fund of one million dollars for the support of invalid soldiers and orphan children of fallen ones; that the Germans of St. Louis pledge themselves to contribute $50,000 to this fund; that the address and proceedings of this meeting be telegraphed to President of the North German Parliament, with the request that they be presented to King William and published to the German people.

A Finance Committee was appointed to raise funds and to co-operate with the Germans of other cities in the United States in carrying out this project.

Ex-United States Senator B. Gratz Brown sent a letter to the meeting, in which he says: "With the dynasty interests that appear to be the excuse for a declaration of war on the part of the Emperor of France, no American can have any sympathy. We, as citizens of a Republic, can rightfully sympathize only with the people of a foreign country in the defence of their nationality, their right of homogenous development and their laudable wish to draw within a common league all of kindred descent, or speech, or affiliation, that a united faith may make them one nation, either for defence or organization." He thinks that however much we may condemn the authors of this war, startling impulse will be given to many latent Democratic tendencies. Whether France with its Napoleonic dynasty, or Germany with its federal unity, shall henceforth be the controlling force in Europe, involves also the question whether a civil order that appeals only to central authority for support, or a civil society elaborated on the basis of local self-control, shall obtain mastery for the future in moulding the destinies of the Continent. The triumph of the latter he believes will redound equally to the benefit of the French as to the German nation. He also believes that German unity will in the end work out German Republicanism and a federation of all that great brotherhood of people in the heart of Europe, and with the surroundings that now obtain this can only be done under the lead of Prussia. "At all events, if the only State under a kingly form of government that has admitted political progress and local autonomy as an element of its social organization, that of Napoleon, it will be long years before any foothold for liberal advance will be found under the shadow of his rashly extended baleful influence. But aside from all these considerations, Mr. Brown says: "Who can forget the time of our own extremest peril. While the cordial good will of the German populace of Europe was giving to us material encouragement of the most vital kind, and whilst a united German support was filling the ranks of our armies in the field, the Emperor of France was plotting with the traitors at Richmond for the occupation of the Chesapeake as a French naval station and organizing English and Spanish expeditions to Mexico to blockade the United States by land and prepare the way for permanent support of the Southern Empire."

This letter was received with loud applause. The meeting continued until a late hour and was largely attended by people of all nationalities.

CHICAGO.

Meeting of Germans to Sympathize With Prussia—Dispatch to King William—Departure of Germans to Fight for their Mother Country.

[By Telegraph to the Pittsburgh Gazette.]

Chicago, July 18.—A large meeting of Germans was held at Turner Hall yesterday with reference to the war in Europe. Casper Butz presided, and speeches were made by Col. Jussen, Collector of Internal Revenue, Herman Raster, editor of *Staats Zeitung*, Gov. Salamon, of Washington Territory, and other prominent Germans. Resolutions of sympathy for the German cause were passed unanimously. Three thousand dollars were at once contributed to aid the German cause.

The following dispatch was sent by cable: "*To King William*, of Prussia: The Germans of Chicago tender to you and to the German nation their heartfelt sympathy in the war against the perfidious traitor, Napoleon, and against all enemies of German progress and unity."

The excitement among the Germans is even greater to-day than at any time since the declaration of war was made. All the places of resort are thronged and the situation is discussed with great vehemence. The hatred for Frenchmen is remarkably intense. Over one hundred Germans departed by train today for Fatherland to take service in the Prussian army, and more will follow. The influence of the prominent leaders has been exerted in vain to dissuade them from such a course.

New York Money Market.

[By Telegraph to the Pittsburgh Gazette.]
NEW YORK, July 18, 1870.

The excitement in the Gold Room is fully equal to any since the September panic, and the price ranged between 117½ and 122¼. Foreign bankers have been buying on orders from the other side, which seem to have been given in anticipation of a general European war—reports to-day being that Russia has joined Prussia, and that Austria will now probably take sides with France. Extreme agitation in European money centres is reflected in decline in London of Consols to 89, and 5.20s of 62 to 81¼@82. On the street early sales were between 117½@118; the first recorded sale at 117¾, after which there was a steady advance to 120¾, from which point there was a jump to 122¼, and a decline to 120¾@121. The cause of the jump was a report that there was such a panic in London that it was impossible to obtain quotations for United States or other securities, and that the Bank of England will call an extra meeting to advance bank rate to higher figures. There was a perceptible abatement in the excitement late in the day and the price declined to 119¾. This was on the receipt of a cable telegram giving higher quotations in the foreign markets. Closing quotation 120¾. The day closed with a calmer feeling, and there was a commendable abatement in the speculative excitement. The recent panics in Frankfort, Bourse and London Stock Exchange were engineered by the Germans to sustain the bull movement in the gold room. The German element in our midst, it is estimated, now hold at least $25,000,000, and are short of government bonds to the extend of $50,000,000. Viewing the situation from this standpoint, it is easy to see that Wall street is hanging over a volcano. The situation turns upon the point of a short or long war in Europe. If a long war, then the Germans are likely to come out triumphantly, but in case of a short war, then they are likely to pass through the most disastrous financial defeat in their history as operators in Wall street. Carrying rates 5@6 per cent. The clearances were $84,000,000.

The specie shipment by English steamers on Wednesday is expected to be very large; the amount now predicted is $5,000,000 to $7,000,000.

Foreign Exchange held firmly at 10@10½.

Money more active at 5@7 per cent.

Governments opened excited and prices declined. The decline, however, was insignificant compared with the fall in the foreign market, which was offset by the advance in gold premium here. Late in the day the market was steadier. German bankers have been heavy sellers of bonds to-day, and other large sales were made, it is believed on speculative account, by professional operators. Investment business seemed to be confined to purchasers. Coupons '81 12⅜@12⅞; '62 9¾@9⅞; '64 9⅜@9⅞; '65 9⅛@9⅜; new 8⅜@8⅝; '67 8⅝@8⅞; '68 8¾@8⅞; 10-40's 6⅛@6⅜; currency 12⅛@12⅜.

State securities dull: Missouris 91; Old Tennessees 64½; New 64½; Old North Carolina 50; New 30.

During the early part of the day the stock market was strong, but after the sudden rise in gold became weak and the advance of the morning was more than lost. Dealings were large on the entire list, but the heaviest was in Pacific Mail, which was exceptionally strong on the report that a European line would be established. After this stock the chief interest was in New York Central, Reading, Lake Shore, Rock Island and St. Paul.

The Stock market was dull and steady at the close, with some recovery from the lowest point of the day. Lake Shore loaned flat and as high as 1-32 was paid for the use of North-western.

Canton, 68; Cumberland, 40; Western Union 34½; Quicksilver, 4½; Mariposa, 6½; preferred, 12½; Water Power, 15½; Adams Express, 67½; Wells, 15; American, 44; United States, 45½; Pacific Mail, 43; New York Central, 96½; Scrip, 92½; Erie, 22½; preferred, 43; Harlem, 136½; Reading, 97½; Michigan Central, 118½; Lake Shore, 96; Illinois Central, 134; Pittsburgh, 107; North Western, 84; do. preferred, 87; Rock Island, 112½; New Jersey Central, 102; St. Paul, 62½; do. preferred, 78½; Wabash, 53; do. preferred, 81; Ft. Wayne, 94; Terre Haute, 32; do. preferred, 63; Chicago and Alton, 116½; do. preferred, 116; Ohio and Mississippi, 35½; C. C. and C., 81½; Hartford and Erie, 3½; St. Joe preferred, 117.

The Sub-Treasury balance is, Gold, $71,553,183; Currency, $10,184,060.

FRANCE.

Paris, July 18.—The Prussian guns at Kehl are leveled at the French Custom House while the French guns are seriously threatening the Prussian Customs. All the troops from the Chalons camp are between Metz and Thionville.

Marshals Bazaine and Canrobert have left Paris for the front.

The French gunboats will co-operate with the French in action on the Rhine.

2 P. M.—The Emperor and the Prince Imperial are expected to leave on Wednesday for the front. The Empress Eugenie will act as Regent during the absence of Napoleon.

France demands a decision from the South German States by noon to-day.

Don Carlos has been expelled from France. Marshal Canrobert commands the First Army Corps, the Duke of Palikao the Second, General Frossard the Third, Marshal McMahon the Fourth, and General Forey the Fifth; Marshal Bazaine will command the Imperial Guards and Reserves.

The French evacuation of Rome is again rumored.

The French men-of-war are watching the departure of the Prussian iron-clads from England.

The *Gaulois* says the English Government has instructed Lord Lyons to communicate with Grammont on the subject of the neutrality of Holland, which England wishes stipulated.

CENSORSHIP OF THE PRESS—M. THIERS' SPEECH SUPPRESSED.

New York, July 18.—The *Tribune's* correspondent telegraphs: Not one word of Thiers' remarkable speech was allowed to reach England by telegraph. *There has been a systematic scheme afoot to deceive Europe about public opinion in France respecting war, and deceive France about the opinions of Europe.* Telegrams to the English papers during the past week have misrepresented the tone of the French independent press and suppressed all manifestations against the war. The press censorship was never more active and unscrupulous. In spite of its first wavering, the English press now, without exception, charges France with the responsibility for war. It appears that after Grammont's declaration a demand was made for the dispatches. Ollivier, after refusing to give them, was compelled to admit that France had finally declared war on account of the Prussian dispatch, communicating to the European courts the King's refusal to receive the French Ambassador, and that this dispatch, thus made the basis of war, had not been seen by any French Minister. The Government had in fact declared war on what purported to be an abstract of that dispatch supplied by two French spies whose names were withheld. When the war was announced the Left refused to join in the shouts of the majority. When the majority voted an extra war credit of 500,000,000 francs, the Left again sat silent.

M. Thiers, after declaring his love for his country and his patriotic determination, when war should be declared, to grant to the Government the means of conquering, said: "Our duty is to reflect; the resolution you have just adopted is the death of thousands of men in one instant. I beseech you for reflection. Bethink you of May, 1866. You refused then to hear me, when I sought to show you what was about to happen. Let that recollection persuade you to listen. Now that the principal demand of the Government has been conceded, my conscience tells me I fulfill a duty in resisting imprudent passions, and represen ing soberly the country's interests. Is this a time for you to break the peace on a mere question of susceptibility? You are shedding torrents of blood for a question of form. If I had the honor to govern my country, I should have wished to give it time for reflection. I regard this as an imprudence, and its occasion as ill chosen."

After the dispatches on which the declaration was made had been frequently demanded, and as often refused, M. Ollivier said: "I will read two dispatches, but not the signatures, for our agents would be sent away." He then read part of one dispatch confirming the refusal of King William to receive the French Ambassador, and two dispatches from the French agents abroad giving the substance of Bismarck's circular. The circular itself M. Ollivier did not pretend to produce. He concluded by saying: "We go to war with a light heart and confident in our army. We will tell the whole truth. What we could not endure was the semi-official communication to tell Europe of the rejection of our Ambassador; all the more significant because done in the most courteous terms."

M. Thiers replied to Ollivier: "It is to a blunder that we owe the war. Prussia ought to have been attacked when she desired to unite the German States. Then war would have been legitimate and we would have been sustained. I blamed Sadowa at the time. To-day the world demands of us legitimate complaints. Prussia also has committed a great fault in negotiating with Spain. Yet Prussia wished peace, and we have war. If we had still to require the renunciation of the Hohenzollern candidature I should still be with you, but now that we have obtained that, we demand something else. You have not only obtained your result in form and substance, but yet you say Prussia has not yielded in form, and we have been insulted. Public opinion will turn against us—the journals of Europe will be against us. Prussia never would have resumed the candidature. It would have been madness."

PRUSSIA.

Berlin, July 18.—France has sent a threatening message to the Governments of the South German Confederation, demanding of them, within twenty-four hours, a declaration whether or not they will remain neutral in the approaching struggle.

The Crown Prince of Prussia has taken the field and is in command of the Prussian forces.

The French iron-clad fleet is chasing the Prussian squadron towards the Baltic.

The official press asserts that Benedetti, the French Ambassador to this country, courted insult by repeatedly waylaying and addressing King William, after he had received Prussia's ultimate answer, and renewing his insolent demands. It is said that Benedetti was not recalled by the French Government, but had a leave of absence granted him on a matter altogether foreign to the question at issue.

ENGLAND.

London, July 18.—The French accounts report that an engagement occurred near Thionville, between the French and Prussians, in which the latter were repulsed. The affair is said to have been merely a skirmish.

The *Morning Post* has a double leaded article containing the following: "Any violation of Belgian territory ends England's neutrality."

The steamship Leipsig, of North German Lloyds, will not sail for Baltimore as advertised. She is detained now at Southampton until further orders from Germany. All the Prussian merchant vessels now in British ports will remain. The crews have disbanded and are returning home. There are in our ports many German colliers; these have been ordered to remain lest their cargoes fall into the hands of the French.

The *Times* expects to be obliged to chronicle Prussian reverses at first, owing to the superior preparations and efficiency of the French army. Prussia needs at least another fortnight to get altogether in readiness. The *Times* also says France, without a shadow of excuse or justification, plunges Europe in a war of which no person living may see the end.

A panic arises from the rumor that the Emperor of Russia pronounces in favor of Prussia and mobilizes the Russian army.

The stock markets in London and Liverpool are purely nominal. There have been no genuine transactions.

1:30 P. M.—There are exciting rumors on the Stock Exchange that Russia has joined Prussia as anally. Everything is declining. Bonds have decreased to 82¼, a fall of 3¼. Consols 90¼.

2:10 P. M.—The city is greatly excited and business is at a stand still. United States securities are the only ones saleable, and they at a great sacrifice. United States bonds are quoted at 80@82; consols 89¼@89⅞. A large advance in the price of corn has taken place.

The French Government is now enforcing a prohibition against code and cypher words in telegrams.

A violent thunder storm passed over the Scottish lowlands Sunday, doing much damage to property.

CHINA.

MASSACRE OF FOREIGNERS CONFIRMED.

St. Petersburg, July 17.—Later and authentic advices from Tientsin, by telegraph through Siberia, confirm previous reports of the massacre of foreigners in China. The outrages were committed on the 10th of June. The natives set on fire and destroyed the French establishments, but left those of the Germans untouched. The representatives of foreign powers at Pekin had addressed a joint note to the Chinese Government demanding the punishment of the rioters and indemnity for losses sustained.

SWEDEN.

Copenhagen, July 18.—The neutrality of Sweden has just been officially announced, the government having previously communicated with France.

SWITZERLAND.

Zurich, July 18.—Switzerland will maintain an armed neutrality. The Chambers voted plenary powers to the State Council to raise money and troops.

Later Intelligence.

Towns on the Frontier Occupied by Prussians.

Paris, July 18—3 P. M.—At noon the Prussian forces occupied the following points: Saarbruck, in Rhenish Prussia, and Neuberg, Rhenish Bavaria. Both these towns are directly on the frontier. They also had a force concentrated at Linden, in Hesse Darmstadt.

Russia Sustains Prussia.

It is now generally believed here that Russia sustains Prussia.

The War Without Pretext.

The *Cloche*, Red Republican organ, holds the Emperor answerable for war without pretext.

France Distrusts Belgium.

The *Figaro*, in order to show why France distrusts Belgium, mentions the fact of Gen. Briolmentz's appointment to the command of one of the corps and of Chazel to another. The former served in the French army many years ago and held other offices of trust under the French government, but resigned on account of difficulties with his superiors and left the country. Gen. Chazel has recently been conspicuous in urging conformity of the calibre of Belgian cannon with that of Prussia. Both of these Generals command on the French frontier.

Cable Company Arrangements.

The Atlantic Cable Companies have arranged to send their foreign business via lines outside of France.

Sweden will Join Denmark and France.

The *Gaulois* says that Sweden, according to dispatches received here yesterday, is ready to join Denmark and France, if the fleet operates in the North and Baltic Seas. It is reasonably certain Russia will be strictly neutral.

No Blood Spilled Yet.

1 P. M.—News received direct from the seat of war to one o'clock this afternoon states that there has been no blood shed.

The Prefect of Police has issued a proclamation requesting the citizens of Paris to make no more war demonstrations.

No Formal Declaration of War as Yet—Each Power Hesitates to Assume the Aggressive.

Paris, July 18.—According to the statement in *La Liberte* this morning, neither France nor Prussia have yet issued a formal proclamation or committed a technical act of war. Each power hesitates to appear the aggressor. *La Liberte* shows that both Bendetti and Von Werther withdrew from their respective posts of their own accord, and contradicts the report that passports had been sent to Count De Solms, charge d'affairs of Prussian Legation, who up to last night remained at the embassy in Paris.

The Situation Explained.

La Liberte looks on this fact as one of much significance and explains it as follows: The Count de Solms declares that his goverment does not desire to begin the war, that it does not wish to assume the responsibility and still relies on the wisdom and conciliatory spirit of the Emperor. In accordance with this the Prussian charge admits that he has been instructed not to ask for his passport, but if the Court of Tuilleries goes to take the initiatory and sends him passports, he will consider it an act of expulsion and will withdraw with the entire legation.

The Emperor will End Diplomatic Delay.

This situation, however, cannot last long. The Chambers expect to receive to-morrow a proclamation by the Emperor declaring war, which of course will put an end to all diplomatic delay.

Publication of Military Operations to be Prohibited.

The Ministry have submitted to the Corps Legislatif the project of also prohibiting the publication in public journals of information regarding the movement of troops and military operations. Violations of the law are to be punishable by a fine of from five to ten thousand francs, and a second offence will render the journal liable to suspension.

Supplemental Credit Desired.

The Minister of Finance has asked of the Corps a supplemental credit on the year 1870 of four hundred million francs for the war budget, sixty million francs for the Navy, five million for the Minister of Finances, and four hundred thousand francs for the Ministry of the Interior. It is asserted that as soon as the Corps Legislatif has disposed of the above business, together with the budget of Paris, it will adjourn for the municipal elections, after which the session will be resumed, and any additional legislation necessary to sustain the Government in the emergency will be attended to.

Patriotic Subscriptions Pouring In.

Patriotic subscriptions for the army continue to be taken up throughout the country, and large sums of money have been received. The journalists of Paris and the provinces have appointed a committee to receive subscriptions, with Emile De Gerardin as President. The Prefect of the Seine has placed an office in the public buildings at the service of the committee for the collection of subscriptions.

Council of War at the Tuileries.

Evening.—A Committee of Ministers and Council of war were held at the Tuileries today, at both of which the Emperor presided.

Prussia Never Better Prepared for War.

London, July 18.—General Maltka stated in the Prussian Cabinet Council that Prussia was never better prepared for war than at the present time.

The French Army Five Days Ahead.

According to private information received in this city, the French army has a start of five days on that of Prussia. There is a rumor in circulation that the French troops have commenced bombarding the town of Saarbruck.

The Prussian Commanders.

Crown Prince, Frederick William, has departed from Munich. The chief command of the South German armies has been conferred upon him. His cousin, Prince Frederick Charles, is to command the troops of the North. Prussian troops are passing westward. Some have received counter orders, which is perhaps on account of apprehensions respecting Austria.

MARINE NEWS.

Londonderry, July 18.—The steamship Scandinavian, from Quebec for Liverpool, has been signaled.

Queenstown, July 18.—The steamship City of Cork, of the Inman line, and the Siberia, of the Cunard line, arrived here yesterday.

THE DAILY GAZETTE.

OFFICIAL PAPER
Of Pittsburgh, Allegheny City and Allegheny County.

GAZETTE BUILDING:
Corner of Sixth Avenue and Smithfield Street.

TUESDAY, JULY 19, 1870.

GOLD closed in New York on yesterday at 120¼.

THE war news from Europe will be found very interesting this morning.

GOLD touched 122 yesterday. There is every probability that it will go still higher in view of the foreign war in progress.

THE conservative and conscientious speech delivered by M. Thiers on the war precipitated on Prussia does credit to the head and heart of that venerable and experienced statesman. Had France more such advisers her people would be much happier and far better off.

A CONVENTION of Republicans representing the minority counties of the State was held at Philadelphia last week. The whole burden of their song was that party patronage was withheld from them. Let us see how things look:

They have the Governor and both his private clerks. The Secretary of the Commonwealth. The Deputy Secretary and four of the nine clerks. The Auditor General and nine of the twelve clerks in that department. The Surveyor General and five of the twelve clerks. Two of the four clerks in the Treasury Department. The Deputy Attorney General. Two of the five clerks in the School Department. The Adjutant General and two of his four clerks. The Superintendent of Soldiers' Orphans and two of his assistants. The Clerk of the House of Representatives.

We do not complain at this, but what has Allegheny county to show in return for the hard work she yearly does to keep the party in the ascendancy? But Allegheny does not work for offices and is content, at least murmurs not, against the present situation and allotment of offices.

ON NEXT SUNDAY the dogma of Papal Infallibility will be formally announced by Pope Pius, the IXth. Its final adoption has created no excitement in the Christian world for all knew that the dream of the Pontiff would be realized and that the able efforts of those few Bishops opposed to clothing him with such extraordinary power would be of no avail. How the doctrine will be received by faithful Catholics remains to be seen. It will require years for them to lend willing acquiescence to the idea of Infallibility, and it never can become a popular doctrine. However, the Catholic who would remain in the communion of the church must accept the dogma as one of the tenets of his faith, else he will be excommunicated and ruled outside the pale. He must either accept Infallibility or abandon all that he believes and admires in his religion. The alternative is a serious one to him, and for that reason it is extremely doubtful whether much organized opposition within the church will be brought against the doctrine about to be proclaimed. In view of the war in Europe, much less attention will be paid than otherwise might have been accorded to the promulgation from the Vatican of a doctrine which at its inception created such excitement in Protestant and Catholic circles throughout the world.

ALREADY a skirmish has taken place between the French and Prussian soldiers, in which the latter were repulsed. The engagement was of no significance. It is announced that the Crown Prince of Prussia, who has the utmost confidence of his people, has taken charge of the Prussian forces, while the Prince Imperial of France will enter the field as a student in war matters. The utmost activity prevails on both sides, and a great battle is imminent. The rumor that Russia has formed an alliance with Prussia will probably be found to be without any truth, although we believe that that Government will join hands on that side so soon as a more opportune moment arrives. The French naval forces are on the alert, and by river and by sea are chasing up and watching the enemy's vessels. France as a maritime power is vastly superior to Russia, but the contest will not be decided by aquatic victories. Hard fighting at the point of the bayonet must be done to secure the triumph of either side. Every day renders more certain that the war will not end till all or nearly all the great powers of Europe are drawn into the trouble, and there is no living prophet who can say where or when the struggle will end.

So far we cannot see what contingency may arise to bring our country into the complication of war troubles on the other side of the water. We have as yet no occasion to grow alarmed concerning our peaceful relations with the whole world, and we cannot imagine from what quarter the occasion will come if it shall come according to the belief of alarmists.

NATIONAL PROSPERITY.

The world has not got rid of all its constitutional grumblers. There are many men whom no state of things would satisfy. They are always afraid that the world is going to fall, and their greatest dread is that it will surely fall upon them. They are always being crushed and oppressed, in their own opinion, when the truth is they enjoy ease, affluence and prosperity.

The Democratic press is continually howling about the corruption and extravagance of the Republican party. Constitutionally grumbling Republicans unite in this howl, and in an endeavor to conceal their dissatisfaction at not securing the places of trust and emolument to which they aspired, cry for retrenchment and reform, although they have contributed, in no small degree, to inaugurate and bring about the state of things of which they so hypocritically complain. The reason of all this cry about corruption and extravagance is very palpable. Those who have raised it, and are continually endeavoring to swell its volume, are not in the enjoyment of the loaves and fishes.

Even the President has been assailed, and charged with mal-administration, and mismanagement of public affairs. Everything, it is alleged, is going to ruin because of the incompetency of the National Executive and the corruption of the Republican party.

These charges of universal corruption and extravagance are utterly groundless. Facts and figures prove incontrovertibly that they have no foundation in truth. The affairs of the Government have been managed more economically during the past year than during any other year since the war commenced. Improvements have been going on upon a scale hitherto unparalleled, perhaps, in the history of the country. That there are leaks that should have been stopped, it is admitted, but Rome was not built in a day.

In proof of our statement, we have only to look at the extensive lines of railroads which have been constructed; the large sums of municipal, county and State debts which have been cancelled, and the number of palatial residences and more humble domiciles which have been erected in every city, town and village throughout the country. Our National debt has been reduced about one hundred and four millions during the past year. We paid upwards of one hundred and fifty millions of interest on our public indebtedness, besides defraying all the expenses of the different departments of the Government. There has been a large reduction made in the income tax. The internal revenue taxes have been reduced some sixty millions. The reduction in the tariff is estimated at thirty millions, that on tea, coffee and sugar, articles of daily consumption in families of limited circumstances, being reduced fifty per cent. The expenditure of the Government, in its various departments, has been reduced about twelve millions. The whole reduction in the amount of taxation alone is about ninety millions. All this was done without imposing any additional taxation, rendering the burdens of the people more onerous, or causing detriment to any branch of industry.

We might refer to the statistics of imports and exports, and immigration, in proof of our increasing prosperity. For the ten months ending with April 30th, 1870, the excess of imports over exports was $5,707,311, while for the corresponding period of 1869, it was $75,926,755, making a difference of $70,219,444. The value of foreign commodities remaining in the warehouses of the United States April 30th, 1870, was $55,748,684, against $51,214,020.

The total number of immigrants who arrived in this country during the quarter ending March 31st, 1870, was 38,490; of whom 26,836 were males, and 11,654 females; 174 had professional callings; 2,881 mechanical trades; 1,030 trades other than mechanical; 16,714 followed miscellaneous occupations; 1,367 occupations not specified; 16,324, mainly women and children, had no occupation. If each one of these immigrants was worth one hundred and fifty dollars on landing, which is the estimated capital said to be possessed by them, they have enriched the country to the amount of nearly six millions and a half.

If all this has been done, and much more to which we need not here refer, it is an evidence that our country was never in a more prosperous condition, nor the affairs of our Government managed with greater economy.

We do not know what effect the war which has broke out in Europe may have on the funding of a portion of our national debt. But if we can succeed in funding one thousand five hundred millions, in accordance with the legislative provisions which have been made, it will be an annual saving in the public expenditure of twenty-six millions more. And we see no reason why it should not be accomplished. Our Government has fully demonstrated her ability to more than meet all her obligations, even before she has been entirely relieved from the tremendous strain imposed upon her by the late war, and our country is growing in material wealth and prosperity every day.

Let those who entertain such fearful apprehensions of national ruin, and bring such unfounded charges against our President as those with which the Democratic, and even a small portion of the Republican press, teem every day, look the facts and figures in the face, and unless they are willfully blind they must see that our country was never in a more prosperous or hopeful condition than at the present time, and that their cry of extravagance in the public expenditure and universal corruption in high and low places is utterly groundless.

IS ITS WORK ALL DONE?

The Republican party had a great mission, and its progress in the work which the Supreme Ruler of the affairs of men gave it to do is far beyond what the most sanguine and hopeful could have anticipated fourteen years ago. The country is not only preserved in its integrity, but rendered immeasurably more compact and stable than it ever was before. Indeed, the great objects for which the Constitution was originally formed have been at last attained—"a more perfect Union"—"the blessings of Liberty"—the establishment of "Justice," and a perfect and well-defined Nationality. Slavery, the bane, the scandal, the curse of the nation, has been utterly and forever abolished. Americans and all stand this day on an even platform before the law, and are invested with equal political privileges. Never was such a revolution effected in so short a time; and well may the Republican party exult in the work which it has been the favored instrument of accomplishing.

Ten years ago slavery dominated in the executive and judicial departments of the government, and even Congress cowered, and cringed, and compromised to propitiate as far as possible the insolent, domineering and insatiable demon. Intrenched as it was in the Constitution, it proudly defied all opposition, and became year by year more and more exacting—claiming the right to go whithersoever it pleased over the vast territories of the West.

But this last demand was too much for the spirit of the American people to brook, and hence the fierce struggle on the soil of Kansas; hence the spontaneous resolve in the hearts of millions that slavery should extend no further; and out of this stern resolve sprung the great party of which we are speaking. Other issues were laid aside or held in abeyance, and men banded together for the single purpose of arresting the progress and breaking the force of this overflowing scourge, this insolent and despotic power. The election of 1856, although it did not give victory to the new party of freedom, showed us that the nation was thoroughly aroused; and four years afterwards the election of LINCOLN was accepted by both the great contending parties as a decree that slavery was checked in its march over new territory, and its domination in the councils of the nation at an end.

This great decision, coming so suddenly, drove the party of slavery in the South to madness, and the next act in the drama was secession. But here those insolent people, who had long been accustomed to rule with almost equal ease both slaves and politicians, were driven to utter madness when they discovered that the American people would not permit them to break up the Union and destroy the Government. Then they fired upon the flag.

The tremendous struggle that ensued was sustained almost entirely by the Republican party. Their opponents in the loyal States, although they cowered beneath the wrath of an aroused patriotism, did all that such men could do to give aid and comfort to those who were then enemies in arms against the Government, and to discourage and demoralize those who were contending for the integrity of the Union, the salvation of the country, and the cause of Liberty. There were, it is true, many honorable individual exceptions in the Democratic party; but the leaders of that party, for the time being, acted a part which made it not at all uncharitable to place their names on the roll of traitors. Witness their resolution in their national convention of 1864, declaring the war a failure.

Step by step, urged on by fearful tribulation, blood flowing like water, and lamentation over the slain in hundreds of thousands of households, the Republican party rose to the full and glorious assertion of those eternal principles of Truth and Right which finally culminated in the fifteenth amendment. That was the point to which Providence seemed to be leading this great ruling party all through the war, over the tragical death of their first noble hearted chief, and through the scandalous administration of Andrew Johnson. Every impediment in its course was made to push it up to higher and higher ground. Now it can serenely look back upon the rugged road over which it has been lead and exultingly cry "all is well."

But is its mission accomplished? By no means. Its work now is to watch with jealous care over the high ground which it has gained; to guard the principles which have been established; to consolidate and make strong the grand temple which has been reared at such fearful cost; and to throw the shield of its protection over the almost defenceless heads of its millions of new-born citizens. Slavery, as an institution, is dead and buried; but the spirit of slavery yet lives, and will live for a generation to come. Never were the principles which underlie the Republican party more necessary than they are at this moment; and the man, or the men, who would do aught calculated to weaken, distract or break up the grandest and most beneficent organization which this or any other country ever saw are deserving of as severe a denunciation as were those who, at Chicago, in 1864, declared the war then raging to be a failure—a war which, a few months later, terminated in a glorious triumph.

The Republican party, grand as it is, pure and lofty as are its principles, and glorious as is its record, is not immaculate. No great organization on earth is, or ever was so. Corrupt men attach themselves to it, as such do to the Christian Church. But the place to deal with such parties is *in* the party, or *in* the Church, as the case may be, not outside of it. As in politics power goes with numerical majorities, and as the principles which underlie parties, not the integrity of a leader here or there, determine their character, it is treason to the country, to the race, to God himself, for any man to turn his back upon such a party as this. It is eminently right to do all in his power to preserve its purity and to oppose boldly every measure, every man, every act derogatory of the high principles of the party; but for a set of men to set themselves to work to rend it, under pretence of purifying it, is sheer madness or something worse.

We can only maintain those grand principles which have lifted our country so rapidly from the deep degradation in which the Republican party found it, to its present lofty attitude among the nations of the earth, by maintaining and conserving, by all possible means consistent with honor, our party integrity. Divide us, and we are conquered. Break off as much of the Republican party as will leave it in a minority, and although its principles cannot die, they will cease to bear rule and give force and direction to the Government, and we shall witness a return of the era of Pierce and Buchanan. What Republican would wish to see such a consummation as that?

If we need reformation, let it be made *in* the party, not *outside*. To go outside is to make a new party, even though its members bear the same name and honestly hold the same principles. To make an adverse nomination—no matter what the pretext may be—is to make a new party, just as much as Jeff Davis and his compeers tried to make a new nation by breaking away from the union. A man that we do not like, or in whom, personally, we cannot fully confide, may be put on our party ticket. Still, for the time being, he stands as the representative of principles which we feel to be very precious, and for the sake of these principles we vote for him. Millions of Republicans at the polls have felt the force of this principle, and in voting as they did they acted patriotically and wisely, although many of them may have felt a twinge of conscience that it was in part through their own neglect of duty at the primary work of the party that such names came to be on their ballots. There are times when a good deal of *scratching* is right; but there are other times when it is not wise.

Such a party as the Republican, so vast, so powerful, requires perpetual vigilance on the part of honest citizens to keep it pure; and having done all in their power, they still can only hope for partial success. The mission of this party is not yet accomplished by a great deal. Its principles are right. They have worked well, for they have preserved the nation, established Justice and secured the blessings of Liberty. Now its work is to preserve, strengthen and perpetuate these priceless blessings; and it can only do this by conserving its own unity.

Bayard Taylor on Frisco.

[From the New York Tribune.]

We Americans have an absurd idea that the census makes a city. I suppose San Francisco has a population of 150,000, (it claims 175,000,) yet it has much more the varied, independent, liberal character of a city than Chicago, Cincinnati, St. Louis, or even Philadelphia, with its 800,000. I might also add that it surpasses them all—probably owing to its long isolation—in local variety, while it is behind them all in moral and intellectual activity. The elements of which it is composed have not yet fully coalesced; the race which shall give it its distinctive higher character has not yet grown up. The interest on which the city was founded was—business; the power which has built it up so astonishingly, was—business; and the only new interest which has been added, in twenty-one years, is luxurious living. If a San Franciscan eats and drinks well, and makes money, he is happy.

The hotels are better than in New York—better and cheaper. For three dollars (gold) per day you have a spacious room and meals, not only of the most satisfactory richness and variety, but so served that your relish is increased instead of being taken away. The custom of giving you a dozen little "dabs" of cold vegetables, on as many diminutive plates, has not yet reached here. The steaks and chops are succulent and not greasy, and the sauce (strange as it may seem) have different flavors. Dinner is always served at 6 o'clock, and the only imperfect meal is the mid-day lunch, which invariably consists of stewed mutton and hash. Most persons drink tea with the latter. Nothing surprises me more than the very light consumption of the excellent native wines. At the restaurants you can get a bottle of very fair wine for fifteen cents, and dine better and cheaper than anywhere in the East; but our extremes of abstinence and excess seem to reign here as there.

New Use for Petroleum--Enormous Demand Anticipated.

We had heard it stated several times that Mr. Samuel Bryant, who heretofore had been barefaced on the top of his head, had, by the use of coal oil, grown a thick coating of hair on the aforesaid bald head. We saw Mr. Bryant on Monday last, and upon examination found the statement to be correct. Mr. Bryant informed us that the way he found out this new property of coal oil was simply this: He had a large boil on the bald place on his head, which gave him much pain, and in the absence of anything else he rubbed coal oil on it. He says it relieved the pain almost instantly, so he continued to rub on the oil until the boil was entirely well, when, to his surprise, he found a thin coating of hair coming out over the bald place. He continued the use of the oil for a month or two, and now has a heavy coat of hair on his head. This is no humbug, but the simple truth, and we advise our bald-headed friends to try the experiment.—*Carrolton, Miss., Conservative.*

FARM, GARDEN AND HOUSEHOLD.

EARLY BREAKFAST.

A bad custom is prevalent in many families, especially among farmers, of working an hour or two before breakfast, attending to "chores," hoeing in the garden, cutting wood, mowing, &c. This is convenient on many accounts, but it is not conducive to health. The prevalent opinion is that the morning air is the purest and most healthful and bracing, but the contrary is the fact. At no hour of the day is the air more filled with dampness, fogs and miasmas, than about sunrise. The heat of the sun gradually dissipates the miasmatic influences as the day advances. An early meal braces up the system against these external influences. Every one knows the languor and faintness often experienced for the first hour in the morning, and that is increased by want of food. We do not agree with the boarding school regime, which prescribes a long walk before breakfast as a means of promoting health.

Probably the best custom would be to furnish every member of the household, especially those who labor out of doors, with a single cup of warm coffee, well milked, immediately after rising from bed. Then let them attend to their chores, or mowing, hoeing, &c., for an hour or two, while the teams are feeding and the breakfast preparing. They will feel better and do more work.—*American Agriculturist.*

BE CAREFUL OF THE TEAMS.

The farmer who does not know that there is danger of injuring his team (whether it be of horses or oxen) by overwork the first warm days of spring must have had very small experience, or been a poor observer. The warm days of early spring produce a relaxing effect upon the muscles of man and beast. There seems to be a letting down of the whole system. Men who have labored every day during the winter notice this effect upon themselves, and complain of a lassitude that unfits them for severe toil. The same would be true of cattle and horses if they could speak.

But it is often the case that the farmer's team stands idle most of the time for several weeks in the latter part of the winter, and becomes, in a degree, weak for the want of exercise. If a team thus treated is put ploughing when the first warm weather comes, there is great danger that it will be so overcome by heat and fatigue as to be permanently injured. We remember seeing oxen nearly ruined in this way. Only the most careful drivers should have charge of the team when it is first put to the spring's work in the field; full work should not be expected for the first few days. The capacity of a team for labor on the farm during cropping season depends very much on the treatment it receives during the first week.

Another thing, horses and oxen at work need water often. The ploughman carries his jug of water, or leaves his team to rest while he goes to the house for a drink. But the team works harder than the driver, and probably needs drink as often, yet many teams are taken out early to the prairie field where there is no water, except in the drivers jug, and worked five or six hours before they can get a drop. Is it any wonder that they are injured by drinking too much when they are led to the spring at noon?

CARE OF NEWLY PLANTED TREES.

There is no time in the life of a tree when it requires more care than during the first year or season after being transplanted. It is a too common practice to consider the labor of forming an orchard or the planting of an evergreen or deciduous ornamental tree, as done once the tree is planted. No farmer or gardener thinks of growing a profitable crop of corn or beets without paying attention to their culture during the season, and the same should be duly and diligently and attentively bestowed on the newly planted tree. Its roots in transplanting have been half destroyed, and it has to form them anew; meantime the body and leaves, having exhausted the food laid up in their gum cells the past year, are calling for a new supply, and unless the owner assists, by keeping the earth around them cool, moist and loose, the poor tree must die, for the hot suns and the drying winds are continually sapping away its life blood. The early productiveness of an orchard, the development of shade and flower, are often held in check two or more years just because the owner of the tree did not care for it duly and truthfully in its first year of planting. Five to six years is sufficient to bring an orchard into bearing, or any shade tree into development of beauty, but we often see trees ten years or more planted and yet of no account. There are several ways of caring for trees, but, where it can be done, frequently hoeing, (say twice a week) around them is the best, next to that, first hoeing the ground up loosely and then covering it in a circle (say of six feet in diameter) around the body about four inches deep, with mulch of some sort—new mown grass, old hay, straw, tan bark or coarse manure. In a very dry time, those who can do so will find a gain in watering the entire tree early in the morning, pouring or sprinkling the water over the entire tree; but this practice once commenced must be continued so long as dry weather continues, or it will do more harm than good.

GOOD FEED FOR GOOD BUTTER.

I once bought a dairy of twenty tubs of butter, all made from the same cows, the same season and by the same person. Some eight tubs were good, sound, yellow butter; some eight more of it was very light colored and soft, with a disagreeable flavor; some four tubs shaded down from yellow to white, and the color the index of quality. Careful investigation developed the fact that the good butter was made from good grass feed; and the poor, later in the season, when the grass had failed from drought, and the cows lived upon briars and leaves. A man changed the feed of his cows from corn meal and hay to potatoes and hay; it lessened the quantity of butter, and the color was lighter. Hence the importance of good feed. It is profitable to feed corn meal at all times, excepting when grass is new and plenty, and it is not lost then. A piece of land five rods by two, to each cow, sowed with southern corn will supply the deficiency of the pastures in the last of the season for two or three months, and save the mowings more than the cost.—*Cor. of St. Johnsbury (Vt.) Times.*

RURAL IMPROVEMENT ASSOCIATIONS.

In several of our Western towns there are organized associations for the purpose of improving the streets by planting shade trees, repairing side walks, etc., resulting, according to their reports, in great good. The organization is formed, a president, secretary, treasurer and working committee of three appointed, and members admitted on payment of two dollars or more, suggestions and requests received and transferred for action to the officers. It is the business of the working committee to procure—with the funds paid in—trees, and plant the same, refit sidewalks, prosecute any one who destroys a street tree or ties a horse to it, etc. The distance recommended to plant trees is sixty feet apart for elms, fifty feet for elm and maple alternate, and forty feet for the maple alone.

Preservation of Milk.—*Cosmos* gives the following recipe:

Add to every litre (about twenty-nine ounces) of unskimmed milk, previously poured in a well annealed glass bottle, forty centigrms, (about six grains) of bicarbonate of soda. Place the bottle containing the milk, well corked, for about four hours in a water bath heated up to 90 deg. (194 deg. F.) On being taken out the bottle is varnished over with tar, and in that state the milk it contains will keep sound and sweet for several weeks.

To Preserve Ice.—Now that ice is selling for a penny a pound, it will be of advantage to consumers to know every method to economise in the keeping of the commodity. Here is one, which we find floating around in our exchanges.

"Place your ice in a large vessel, well covered, and place it on a pillow. Then take another pillow and put it on top of the vessel, and by this means exclude the air in a great measure from the ice. Feathers are non conductors of heat, and of course the ice is thus preserved from melting, six pounds having been known to keep at least eight days by adopting this method."

Felon on the Finger.—Many persons are liable to extreme suffering from felons on the finger. These afflictions are not only very painful, but not unfrequently occasion permanent crippling of the members affected. The following simple prescription is recommended as a cure for the distressing ailment: Take common rock salt, such as is used for salting down pork or beef, dry it in an oven, then pound it fine, and mix with spirits of turpentine in equal parts. Put it on a rag and wrap around the part affected, and as it gets dry put on more, and in twenty-four hours we are cured—the felon will be dead. It will do no harm to try it.—*Journal of Agriculture.*

Gibralter--Alleged Attempt to Explode the Powder Magazines of he Fortress.

[Gibralter (June 30th) Correspondence of the London Standard.]

The inhabitants of this city have been in a fearful state of alarm for the last twenty-four hours, and, considering how their feelings have recently been rather roughly shaken by the Bonnell brigandage, and the attack on the young officers on the western beach, it is no wonder if public excitement has nearly reached its climax when it finds that even within the fancied security of the Bayside barrier danger of a terrible type lurks in every direction.

It appears that yesterday forenoon a fisherman coming into town from the New Mole picked up a letter lying in the road between Jumper's Battery and the Ragged Staff. The letter was written in Spanish, and indicated in the plainest terms that the powder magazines of the rock had either been undermined or were at the mercy of a band of desperadoes, and that very shortly the whole place would be blown up.

The letter was immediately placed in the hands of the authorities, and every magazine was at once most carefully examined, but nothing was discovered to give rise to any suspicion of foul play; nevertheless, the most energetic measures were taken to render what was already quite secure if possible more so. As might naturally be expected, all sorts of rumors have been set afloat, and every idea has been used up, from mania to Fenianism, to account for the plot. The general impression appears to be that the whole affair is a hoax on the part of some of the lowest class inhabitants, to keep up the alarm created by the recent robberies and brigandage in the vicinity. Should this latter supposition prove correct, the native population must not be surprised if the liberties which they enjoy in this garrison, and which, under the present kind and considerate *regime*, almost amount to license, are somewhat rudely, but very properly, suddenly and sharply curtailed.

BE ON YOUR GUARD.

The unexampled success which for twenty years has accompanied the use of Hostetter's Stomach Bitters provokes the envy of ignorant nostrum-mongers in all parts of the country, and the counterfeiting business having been measurably played out in consequence of the numerous suits instituted against the offenders, a new system of tactics has been adopted. In the South and West especially, a legion of "Bitters," prepared from worthless materials and bearing a variety of names, have been got up by irresponsible adventurers with the hope of substituting them to some extent for the Standard Tonic of the Age. In some cases country druggists are the concocters and proprietors of these unscientific compounds, which are warmly recommended by the vendors, who endeavor to palm them off upon the credulous in lieu of the great specific which has never yet had a successful competitor, either among proprietary preparations or the medicines prescribed in private practice. This notice is intended to put the public on their guard against persuasions of parties engaged in the attempt to substitute mere rubbish for the most efficient stomachic and alterative at present known. At this season of the year, when debility and complaints arising from a lack of vital energy so generally prevail, it is of the greatest consequence that no tricks should be played with depressed and enfeebled systems. Ask, therefore, for Hostetter's Stomach Bitters, the great vegetable invigorant and alterative, and reject, with deserved contempt, the worse than useless medleys offered in its place. It is as important to the public as to the proprietors of the famous restorative, that this advice should be heeded.

DR. WHITTIER
CONTINUES TO TREAT ALL PRIVATE DISEASES, Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produce some of the following effects as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, Pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 3 P. M. Office, No. 9 WYLIE ST. (near Court House) Pittsburgh.

Total	45
Total last week	25

Forty-five car loads at 18 head to the car, would make 810 head, and add to this at least one hundred driven in from the adjoining country, which would make a total of nine hundred and ten head, and we presume their were several small straggling lots of which we had no account which would in all probability increase the number to 950. Of these twenty-four car loads were from Chicago, twenty-one cars from Ohio and the balance from this State; the quality as a general thing was not good, consisting of thin steers and heifers, mostly just from the pasture field—really good cattle were scarce and sold readily at full prices; but the common and medium grades were very sluggish and it looked at 10 A. M., as if there would be quite a number of this kind left over unsold. Considering the extreme hot weather we have had for the last week, the butchers bought as freely as could be expected, and all the good cattle were sold early in the day, and that, too, as already intimated, at last week's prices, say 8@8¾c. Medium cattle may be quoted at 7@7¾. Common at 6@6½; and stockers at 4@6.

As might be expected, the hot weather has restricted considerably the demand for fresh meat, as consumers generally have reduced their purchases, and, indeed, the masses are obliged to do so, as meat cannot be kept long with the mercury at 100 degs. and upward in the shade, off ice, and but a very small proportion of the people get ice. Those butchers who kill common and medium stock have probably reduced their prices for fresh meat, as this grade of cattle is down in price considerably within the past few weeks; but the best butchers paid as much almost for cattle this week as they did last week, and within ½ a cent of what the prices were three or four weeks ago.

Milch cows dull though unchanged, may be quoted at $35@80 per head as to quality and condition.

Sol. Shamburg sold 30 head, from Chicago, at 7@8.

E Katz sold 47 head of mixed stock, from Chicago, at 4½@7¾.

Jacob Needy 55 head of fair to extra Ohio steers, at 6@8¾.

Hazlewood & Blackstock sold 22 head of steers and cows, from Ohio, for Barnes & Co., at 5@7; 19 head from Ohio, for Taylor, at 6½@7; 20 from Ohio, for Funk, at 6@7½.

Greenwald & Kahn 65 head all from Ohio, at 6½@8¾.

S. Marks & Bro. 19 from Ohio, 90 from Chicago, at 5@8¾.

L. & J. Shamburg 110, all from Chicago, sold at 5½@7¾.

Jas. McAllister sold 18 head steers and cows, for W. C. Thrasher, at 7½, fresh cows at $60@80, also 22 head for Bishop & French, at 6@7c.

Holmes, Lafferty & Co. sold 61 head mixed stock at 5½@7½.

Emerick & Co. sold 36 head of Ohio stock, at 6@7½.

R. C. Crum sold 40 head from Washington county, for Davis, at 4½@6½.

Chas Boyer sold 30 head of mixed Chicago stock for Rothchilds & Zeiglar at $6½@7½.

Stouffer & Sheitemantle had 30 head of mixed Butler Co. stock at 4½@6½.

Jonathan Davis sold 10 head of Washington Co. steers and heifers for Frazee at 5@7.

Hartman & Keefer sold 40 head of commonish stock from Chicago at 6@7.

Sam Lovenstien 30 head medium grades stock from Chicago at 6½@7½.

Rothchild & Zeiglar sold 90 mixed stock, all from Chicago, at 5@7½.

M Kraus 40 head fair to good Chicago stock at 6½@8.

Schomaker & Horner wholesaled 22 fairish steers and heifers from Belmont Co., Ohio, to J. Rothchilds at 6½.

I. Varner sold 18 head Washington Co. steers at an average of 7½; 18 head, from Chicago, at 7½@8¾.

Trauman & Lobman 140 from Chicago and Ohio; about half left over, sold at 6@8¾.

SHEEP AND LAMBS.

There was a very full supply on sale to-day about seventeen hundred head, and as in the case of cattle, they were mostly of the "scalawag" order, good sheep being comparatively scarce, and the indications at 10 A. M were that there would be a number of the former kind left over unsold. Prime fat sheep were in good demand and sold readily at full prices, but there is not much inquiry for scalawags, and they can only be sold at low prices. The former sold at 5@5½cts per pound and extra at 6, which, taking the eastern markets as a basis, is a big price here. Lambs sold at $2@4½ per head, the last named figures being an outside price, and it takes unusually good to bring it. The drovers allege that this kind of stock is relatively higher in the country than here, and it would seem that farmers and stock growers were working off the common and holding their best grades.

M. G. Beighley 60 sheep and lamb at $2½@3½ for latter and former at an average of $1.50.

Stakely & Bro sold 100 lambs at $1,75@3,50; 40 sheep at an average of $3.

S. L Badger had 62 sheep unsold at 10 o'clock.

Stouffer & Sheitemantle had in all 300.

Adam Eckert sold 94 lambs at $2@3½; two stock bucks to L Hoffman at $8 each.

Jacob Rinn sold for Frazee 150 Washington Co. sheep at an average of $2.75 per head.

John Drum sheep and lambs from Allegheny Co, sold 20 sheep at $4; 62 lambs at $2@3½.

M. Flinner sold 96 sheep and lambs at $3@2⅞ for latter, and $2@3⅞ for former.

Jacob Emmel had 65; sold sheep at $2@5, and lambs at $2½@4½.

Garwin & Co had 200.

T. M. Twiss 102 head sheep from Mahoning Co., Ohio, at $2.30.

M. Humes 90 head sheep from Beaver Co. at $2½@4.

John Fairley sold 87 head sheep and lambs from Armstrong Co.

HOGS.

There is but little inquiry for hogs, nor is it to be expected, as people do not want much pork in this kind of weather, with the thermometer ranging from 90 to 100 in the shade. A very small number is now sufficient to satisfy the retail demand, and prices are nominal at 9@10.

St. Louis.

ST. LOUIS, July 18.—Tobacco steady. Cotton nominal. Flour 25c higher and unsettled; superfine $4,50@4,60, X $6,00, and XX $5,25@5,60. Wheat excited and higher; irregular new No. 2 red $1,25@1,28; No 1 do $1,32@1,35; choice $1,37@1,40; No 2 white new $1,25; No 1 $1,35@1,38; choice $1,45@1,47. Corn in demand and 3@5c higher; mixed 80c; white 90@92c in bulk; mixed, yellow and sacked at 85@90c, and prime to choice white at $1@1,06. Oats firmer and 1c higher at 48@52c for prime to choice. Whisky steady at 98c. Provisions buoyant and excited. Mess pork $30@30,50, with some packers holding at $31. Dry salt shoulders, loose, 12½c; packed 13½c, but held generally at 13½c. Bacon active and higher; shoulders 14@14½c; clear ribs 17½c; clear sides 18@18½c.

PITTSBURGH MARKET.

OFFICE OF PITTSBURGH GAZETTE,
MONDAY, July 18, 1870.

There was again considerable excitement in the market to-day, especially in those articles affected by the advance in gold. Breadstuffs are considerably excited and higher, and the same is true of sugars and coffees. Wheat within the past week has advanced 7@8c per bushel and flour 25@50c per bbl, and as they advance there is a good demand, as there always is with an advancing market, and but few sellers—dealers generally would rather hold than sell, being apprehensive that there may be a still further appreciation, and if so, they would have to replace at a higher figure than they are now getting. Refined sugars are up ¾@⅞ of a cent per pound, and coffees fully a cent, and no disposition to sell even at the advance.

ASHES—Unchanged: common soda ash, 4; refined, 4¾; Pearls 9@9½; Pots 7½.

APPLES—In good demand and in limited supply and prices are firm but unchanged, at $4@6 per bbl.

BROOMS—Store prices; Fancy, $5,50; No. 1, $4,50; No. 2, $4; No. 3, $3,50; Common, $2,50@3.

BEANS—Dull; $1,50@1,75 per bush.

BROOM CORN—Is dull, 12@13 cts.

BUTTER—But little offering and with a steady shipping demand prices are steady but unchanged; 16@17 for good and 19@20 for prime.

CORNMEAL—95@$1 per bushel.

CHICKENS—Sales of spring chickens at 60@65c per pair; and full grown ones at 90c@$1 per pair, as to size and condition.

CARBON OIL—Is dull and lower and cannot be quoted correctly.

CHEESE—Is quiet and unchanged at 12@14c, the outside figure for prime Ohio Goshen.

DRIED FRUIT—The market is almost bare and there is not much inquiry for it. We continue to quote nominally at 4½@5½ for apples; 5@6 for for quarter peaches and 7@8 for halves.

EGGS—Dull but unchanged; 21@22c.

FLOUR—Is strong and considerably excited, and as might be expected the demand is more active, and as a general thing dealers would rather hold than sell. We now quote fair to good Western flours, at $6¾@7, and choice at $7½. Rye flour unchanged at 5@5½.

GRAIN—There is an active milling demand for wheat, and with light receipts, prices have still further advanced; we now quote red at $1,25@1,30. There is a firmer feeling in oats, though there seems to be no demand for export at present, but dealers generally seem to be impressed with the belief that prices will be higher within a very short time, and hence they are not disposed to sell at current quotations; sales could doubtless be made at 53, free on board, but holders generally ask 54@55. There is not much corn hereand but little inquiry for it; shelled may be quoted nominally at 85@90. Rye is firmer and in the absence of sales may be quoted at 85@90. No movement in Barley.

GROCERIES—The market has been excited all day on sugars and coffees, and it is difficult to give accurate quotations. Gold advanced eight points, and with it all classes of goods in sympathy with it. We give quotations with premium at 22⅛: Sugars — Porto Rico 10¾@12; Cuba, 10⅛@11⅛. Refined—Crushed, 14⅛@14¾; "A" coffee, 13⅞; "B" 13⅝; extra C, 13⅛; C yellow, 13. Coffee—Rosting 20; fair to good, 21@22; prime to fancy, 22⅛@23⅛.

HEMP—Sales of undressed Kentucky Hemp at $167.

HAY—New crop is selling from country wagons at $10@15, and old at $15@20.

HUSKS—Corn husks, 3@3½ cts.

LIME—Sales of Cleveland at $2,25 per bbl, and eastern at $1,75.

LARD OIL—No. 1 extra is quoted at $1,20@1,25, the outside figure for well established Western brands.

PROVISIONS—Strong and higher. Shoulders at 14⅛@14½; Ribbed Sides, 17; Clear Sides, 18. Sugar Cured Hams, 24½. Lard, 17⅛ in tcs, and 18⅛ in kegs.

PEANUTS—Dull. Tennessee, 8@9 cts.

POTATOES—Under influence of increased arrivals, prices have still further advanced, and we now quote at $3@3½ per bbls for new crop.

SEEDS—We can report a sale of flax seed at $2,20, and it is dull, notwithstanding the market is almost bare.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE,
MONDAY, July 18, 1870.

The oil market continues dull and depressed, and it seems to be growing worse and worse as the war news becomes more complicated. The heavy decline within the past few days is severe on those who are carrying large stocks, bought before the trouble commenced, while those who are "short" will, to a use a common expression, make "dead-loads" of money. Faint hopes are still entertained, however, that there will be a reaction soon; that the war, if does come to that, will be of short duration, though the news to-day is not favorable for this view of the matter, as it looks, at this writing, as if it would not be confined to France and Prussia, but that Russia and perhaps England and other nations would become involved in it, and if so it is likely that it will continue for some time. As noted on Saturday it is almost certain that France will immediately blockade all our leading foreign markets, and this, of necessity, will cut down very seriously the export demand for oil.

CRUDE.

Sale early in the day of 1,000 seller August at 10⅛; subsequently two lots of 1,000 each same month and option, at 10; and 1,000 July at 10; September is quoted at 10¼, and October and November at 10⅛@10¼. Ten days ago, at 10 cents there would have been a heavy speculative demand, but to-day it was hard to find buyers at this figure, for while it might be good stock at that price, people are afraid of it.

REFINED.

The refined market is dull and panicky, and prices have still further declined. Sale 1,000 bbls, July at 25—subsequently quoted at 24½. August nominal at 25; September 25½@26; October 26@26½.

In petroleum quite a panic, and refined offered at 26c; crude cannot be sold over 17½c.

Baltimore.

BALTIMORE, July 18.—Flour active and excited at higher prices, but transactions are restricted by want of stock; western super $5,75@6; extra $6,50@7; do. family $7@7,75. Wheat excited and higher, with receipts of 16,000 bush, mostly new sales; new red $1,50@1,70; white $1,55@1,80; Pennsylvania nominally at $1,55. Corn advanced; white $1,19; yellow $1,10@1,15. Oats 62@65. Whisky dull and unchanged.

Cleveland.

CLEVELAND, July 18.—Flour is very firm and the advance quotations are 25c per barrel. Wheat very firm and 6@6½c better, with sales of No. 1 red at $1,38@1,38⅛; No. 2 red held at $1,36, and closed quiet. Oats in good demand but irregular, selling at 57@58c, closing quiet at the outside figures as the asking rates. The Petroleum market is very dull at 23c for refined, and crude at $4,75.

Louisville.

LOUISVILLE, July 18.—Bagging firm and heavy at 30@31½c. Machine rope and cotton dull and nominal for middling at 18c. Flour active: extra family $5,50. Grain quiet. Provisions active and sellers holding off. Pork $30,50. Whisky 96c. Tobacco market fairly sustained sales of 112 hhds at 4½@7c for frosted to lugs; 7½@24½c for low to medium bright leaf.

RIVER NEWS.

The river continues to recede steadily with two feet nine inches by the Monongahela bridge marks.

There has been but one arrival from below since the date of our last report, the towboat Tiger with four barges of oil barrels from Aurora.

—"Mack," of Cairo, settles a disputed point in this peremptory manner: As much is being said in regard to bets on the Lee or Natchez arriving at Cairo, I will add a few words which may help to mix things, and make them "clear as mud." The corporate limits of the city of Cairo extend to the middle of the Mississippi river. When opposite the upper portion of the city, on the Mississippi river, all boats are compelled, at the present stage of water, to run much nearer the Illinois shore than the Missouri shore. Therefore the Lee and Natchez on their late race, were not only at Cairo, but actually in Cairo.

—The St. Louis *Democrat* of Saturday says: We were pained to learn that the Great Republic on her way hence to New Orleans, got on the lower bar at Liberty Island. When the St. Joseph passed up at one o'clock yesterday morning, she was still hard aground, and was understood to have stopped sparring. The towboat Jim Rees, at Grand Tower, had been sent for, and would lighten off the Great Republic with the greatest possible despatch.

—The Commissioners appointed by the Kennetucky Legislature to superintend the work of improving the Big Sandy, arrived at Catlettsburg Wednesday last, accompanied by their corps of assistants, having finished, as far as practicable, the preliminary survey of the river, including Tug Fork as far as Pond Fork and Louisa Fork to a point eight miles above Pikeston.

—The Marine Dock Company at Middleport has a capital of $240,000, and employs on an average, 150 hands, whose wages in the aggregate, amount to the snug little sum of $600 a week. Boats are now registered to go on the dock there in the following order: Kanawha Belle, J. H. Best, Carrie Brooks, Charlie Bowen, Jennie Howell, Pierrepont and Raven.

—The Pomeroy Salt Transportation Co. have commenced putting their barges in order for the fall and winter campaign. During the month of June this company transported 84,550 bbls salt to the different agencies.

—The new steamer Carrie Converse departed for New Orleans with about all the freights she could take on the water. She has two new barges in tow, which will be used in carrying cotton out of small streams up Red River.

—The Independent packet for Brownsville and Geneva, Belle, Capt. Haney, leaves to-day promptly at 5 P. M. She is building up a very nice trade in the Monongahela valley.

—The united length of the boats and barges belonging to the Mississippi Valley Transportation Company is only sixty feet less than two miles.

—The hull and machinery of the steamer War Eagle is to be raised, and work was commenced to that end on the 8th.

—The Kate Putnam was at Louisville on Saturday.

SPECIAL NOTICES.

☞**DOCTOR WHITTIER CONTINUES TO TREAT ALL PRIVATE DISEASES.** That numerous class of cases resulting from self-abuse, producing unmanliness, nervous debility, irritability, eruptions, seminal emissions, and finally impotency permanently cured. Persons afflicted with delicate, intricate and long standing constitutional complaints are politely invited to call for consultation, which costs nothing. Experience, the best of teachers, has enabled him to perfect remedies at once efficient, safe, permanent, and which in most cases can be used without hindrance to business. Medicines prepared in the establishment, which embraces office, reception and waiting rooms; also boarding and sleeping apartments for patients requiring daily personal attention, and vapor and chemical baths, thus concentrating the famed mineral springs. No matter who have failed, state your case. Read what he says in his pamphlet of fifty pages, sent to any address for two stamps in sealed envelope. Thousands of cases treated annually, at office and all over the country. Consultation free, personally or by mail. Office No. **9** Wylie street, (near Court House) Pittsburgh, Pa. Hours **9** A. M. to **8** P. M. Sundays **12** M. to **2** P. M. Pamphlet sent to any address for TWO STAMPS. ap2

☞**DYSPEPSIA—NEW MODE OF TREATMENT.** PROFESSOR WALKER, the distinguished English Botanist, discovered in Australia an excellent Botanic remedy, an effectual cure for Indigestion, Billious and Liver Complaints, and communicated the same to the Philadelphia Botanic Institute. The Secretary will, on application, forward free to all, this important recipe. The Medical Reform Society who makes this announcement will not make any charge for this recipe, the object being to demonstrate the superiority of Botanic over every other practice of medicine. But in return request those who are benefitted to forward to the Society a statement of their case, and thus aid with facts the present movement in medical reform. These bonds have **50** years to run, are convertible at the option of the holder into the stock of the Company at par, and the payment of the principal is provided for by a sinking fund. The convertibility privilege attached to these bonds cannot fail to cause them at no distant day to command a market price considerably above par.

The greater part of the road is already completed and shows large earnings, and the balance of the work is rapidly progressing.

The present advanced condition and large earnings of the road warrant us in unhesitatingly recommending these bonds to investors, as, in every respect, an undoubted security.

U. S. Five-twenties, at present prices, only return five per cent. interest, while these pay eight and one-quarter per cent. in Gold, and we regard the security equally good.

The Company reserve the right, without notice, to advance the price.

Yesterday morning, at the National Pipe Works, a man was struck by the crane producing a serious and perhaps fatal fracture of the skull, while another in endeavoring to check its progress had one of his fingers taken off.

Abused a Child.—A warrant was issued for the arrest of Henry Levan yesterday by Justice Heisel, on a charge of assault and battery, made by George Fetchter, who alleges that the accused struck his (deponent's) daughter and knocked her down.

Information Made.—The proprietor of the tavern referred to in yesterday's paper as the scene of a row, on Spring Garden avenue, Allegheny, on Saturday night, appeared before Mayor Callow yesterday morning, and made information against nine of the roughs. No arrests have as yet been made.

Malicious Mischief.—F. Keller made information before Justice Heisel yesterday charging the driver of Faas' bread wagon with malicious mischief. He alleges that the accused willfully and maliciously drove his bread wagon against his (deponent's) buggy damaging it seriously. A warrant was issued.

The Lake on West Commons, when completed, will be one of the prettiest features of the Park. The rustic bridge, the water jets and other intended artificial displays cannot prove otherwise than attractive. The Commission have now a new jet on trial, which shows a pretty display of water.

In Jail.—Ellen Yates and Mary Thomas, charged with infanticide, an account of which we published on Monday, were arrested by the District Attorney's special detective, at or near Phillipsburgh, Clarion county, Saturday evening. They were brought to this city yesterday and are now in jail awaiting a hearing.

Excursion on the River.—Yesterday evening quite a large crowd assembled on the Allegheny wharf and Suspension Bridge to witness the starting of the Pittsburgh Barge Club's new boat, Alex. Nimick, on an excursion up the river. A select crew of the club had the boat in charge, and had on board a number of ladies.

Racing on Sunday.—The Perrysville Plank Road proves to be a regular race course on the Sabbath day. A number of sports enlivened the course on Sunday last. One of the number met with an accident by being thrown out of the buggy and trampled upon. He was seriously injured about the breast. We did not learn his name.

Taken In.—Joseph McCormick yesterday passed a check drawn on the Second National Bank for $40 on Neal McCallim, and when Neal presented the check for payment he was informed that McCormick had no funds there. The Mayor was informed of the fact and at the request of McCallim issued a warrant for the arrest of McCormick.

The New Market House.—The vote in East Birmingham on the Market House question, at the election on Saturday, was almost unanimous in favor of a Market House. It stood as follows:

First Precinct—For 112; Against 19.
Second Precinct—For 102; Against 1.
Total—For 214; Against 20.

Desertion.—Sarah Melia made information before Justice Barker yesterday morning charging her husband, Thos. Melia, with abandoning and deserting her. A warrant was issued and Thomas arrested and committed to jail for a hearing. His wife subsequently relented and at her request the husband was released from jail.

Wouldn't Pay.—Dem. Greno is wanted at the office of Justice Heisel. Joseph Mickle complained to the Justice that Greno had hired his son to work for him, and after having the benefit of his labor for one week, refused to pay for it. The Justice said this was obtaining labor under false pretences and issued a warrant for his arrest.

Poisoned Her Ducks.—Annie School was once the possessor of a flock of ducks, seven of which she alleges came to their death from poison administered by Mary Montague. Alderman Shore was informed of the fact and issued a warrant for the arrest of Mary on a charge of malicious mischief. After a hearing she was held to bail for her appearance at Court.

An Honest Servant.—On Sunday Mrs. C. DeRoy, while a on visit to Mr. Keating's, Perrysville, lost a diamond ring valued at five hundred dollars. Yesterday her heart was glad with a call from Mr. Keating, who brought her the ring saying it was found by a servant girl in the dining room. We hope before she dies she may be able to wear her own diamonds for her honesty.

Died from Excessive Heat.—Thomas Reardon, at Shoenberger's mill, in the Ninth ward, yesterday, fell dead while at work before his furnace. Dr. E. S. Umbstaetter, the well known physician, held a *post mortem* examination, and assigned excessive heat or sun stroke to have been the cause of death. Coroner Clawson held an inquest, and a verdict in accordance with the facts of the case was rendered.

Disorderly.—Mary Foust and Mrs. Moochleg live on Robinson street, Fourth ward, Allegheny. It appears they have been in the habit of quarreling with each other, attracting a crowd and disturbing the neighbors in the vicinity. Mr. W. K. McDonald preferred a charge of disorderly conduct against them before Alderman Bowden. A warrant was issued and the parties arrested. They gave bail for a hearing.

Embezzlement.—Michael Berger made information before Alderman McMasters, charging Henry Maeckley with embezzlement. The accused was elected Treasurer of "Land Association No. 1," of Lawrenceville some time since, in which the prosecutor was a stockholder and it is alleged that Maeckley appropriated $745 of the funds of said association which belonged to the prosecutor. A warrant was issued.

Kicked by a Horse.—A farmer named Cyrus Jones met with an accident yesterday morning, by which his leg was broken. He was driving a team of horses in the vicinity of McKee's Rocks, when from some cause or other they became frightened and attempted to run away. In his effort to quiet the animals Mr. Jones was kicked with the result stated. The injured man was removed to his residence and proper medical assistance given.

Disorderly.—Jacob Aigler, a saloon keeper in Birmingham, made information before Justice Salisbury yesterdy, charging Henry Wagner, George Robinson, and George Hager with disorderly conduct, alleging that they acted in a disorderly manner in his saloon. Wagner then made information before the same justice charging Aigler and his daughter with assault and battery. The parties all assembled at the office of Justice Salisbury where a compromise was effected.

Obituary.—Mr. John Savage departed this life at his residence on Wylie avenue last night, after a brief illness. The deceased was widely known and highly esteemed in this community. During the war he was host of the Savage House, and in that capacity as a popular landlord made many friends. He was genial, good natured and kind hearted, and his death will cause much sorrow to a large circle of acquaintances. He leaves a wife and family to mourn his loss.

Herr Wenzel, the German magician, will give six exhibitions of his mysterious feats. The Invisible Lady, Happy Family, Parlor Menagerie, Glass Blower, and thousands of curiosities. Admission only 25 cents.

Music, Mirth and Pleasure.—Next Thursday the ladies connected with Grace Presbyterian church (colored) will hold a grand picnic at the charming and romantic Loudon Grove near Oakland. Arrangements of the most liberal character have been made to secure the enjoyment of all who attend. An excellent band of music will be present to discourse enlivening music, while all the cooking and tempting luxuries of the season will be found at the various booths. All are invited to be present.

Held for Hearing.—Alderman Bolster, of Allegheny, yesterday morning held Catharine Jarick to bail on a charge of assault and battery, preferred by Frank Hardina. The trouble had its origin in one of the many ways incident to the joint occupancy of a house, by different parties. The two families had a disagreement about some trifling matter, and it is alleged by Frank, that Catharine went so far as to choke his (Frank's) wife. The parties reside on Spring Garden avenue, Seventh ward.

Kicked by a Steer.—Mr. Isaac Kahn, a cattle dealer, doing business at the Allegheny drove yards received yesterday a severe kick from a steer that he was driving. The injury was very painful but it is not likely to permanently disable him. His fellow dealers manifested deep sympathy and consideration for him in his sufferings. It is indeed surprising that among those concerned in the handling of cattle more are not injured as they are perfectly reckless of danger, and the cattle are sometimes quite vicious.

False Pretense.—John A. Lippart, of East Birmingham, was victimized yesterday to the sum of $25, and in order to get square he made information before Justice Heisel, charging Christ Ross with obtaining money under false pretences. He alleges that Ross came to him and represented that he had just purchased a lot of cattle for $400, and had not money enough to pay for them by $25, whereupon Lippart loaned him the $25. He afterwards, as he alleges, ascertained that Ross had not purchased cattle. A warrant was issued.

Burnell's Museum, open from 9 in the morning until 10 o'clock at night. White Cloud and his troupe of Indians give four startling performances daily of their various dances, ceremonies, &c.

Lawrenceville Young Men's Christian Association—Permanent Organization—Election of Officers—Interesting Meeting Last Evening—Eloquent Addresses, etc.

There is no better index of the spirit of the age than the great increase of late years of associations of the young and active workers in the different branches of the great Christian work. A few years ago, and Young Men's Christian Associations, Conventions, Sabbath School Associations and Institutes were almost unheard of, but now they are numbered by thousands all over the land. Our own city can boast of one of the most flourishing associations in the land, and in the past years several excellent associations have been formed in the suburbs of the city. Lawrenceville is never behind in any good or noble work. Her young men are fully up to the spirit of the time. This was clearly demonstrated a few weeks ago, when the young men of Lawrenceville held a union meeting, at which were present representatives of all the evangelical denominations, in order to organize a Young Men's Christian Association. At this meeting, which was held in the M. E. church (Rev. Mr. Hickman's), a permanent organization was effected, by the election of the following officers:

President, W. H. Chilcoat; Vice-President, Chas. Parkins; Recording Secretary, J. B. Stewart; Corresponding Secretary, W. Asdale; Treasurer, W. T. Tenner.

At this meeting a large number of young men signed the roll of membership, since which time it has largely increased.

Last evening a very interesting and enthusiastic meeting was held in the Lawrenceville United Presbyterian church, under the auspices of the newly formed association. At eight o'clock the meeting was called to order by the President. After the psalm commencing "All lands to God in joyful sounds" was sung, the opening prayer was offered by Rev. Dr. Andrews.

The first address of the evening was delivered by Mr. C. B. Hatch, who commenced by saying that the young men who constitute this Association, in whose interest we are here met have to ask of the Christian public a friendly recognition. Their request is moderate. They ask not for money so much, as for true, constant and devoted friends. They need sympathy. Their work is such that they need the truest and deepest sympathy. Error and Truth are charging for the conflict. Are we content to be silent witnesses? Shall we be inactive? Let each one give his hand and heart to this noble work, and bid the members of this Association "God-speed."

In addition to this they need your fellowship. They need your company. Show yourselves friendly by associating in their work and give them your whole hearted support and co-operation. To the young men this association offers plenty of work, and by this they alone can show the genuineness of their profession. Let your work ever be to visit the sick, comfort the sorrowing, cheer the despairing, and point the wandering to eternal life. The psalm commencing:

> "Behold, how good a thing it is,
> And how becoming well,
> Together such as brethren are
> In unity to dwell."

was then sung after which Rev. Dr. Andrews of Lawrenceville, made an eloquent address. He stated that he came here to hear not to speak. He still felt young enough to be a member of the Young Men's Christian Association although well advanced in years, and to heartily sympathize in its great and noble aims. The object of this association is known to you all. It aims to elevate humanity and advance the Kingdom of Jesus Christ. Between the church and Sixth street the number of infamous dens are legion. To you is committed the work of breaking up these dens of infamy, and saving the young men of the city. I have often seen young men of the Pittsburgh Association going into these evil haunts and urging men to give up their wicked traffic. I ask for this association the christian sympathy of this community. Young men leave home and home influences, and come to the great city where they are strangers and feel lost. They are then easily led into evil associations and to places of sin and death. Who is to go after these young men, but our Christian young men and invite them to the prayer meeting and the house of God? Our Christian associations have in this manner saved thousands of young men to society and the world. Dr. Guthrie relates of a British man-of-war, when near the coast of Portugal descried an old hulk drifting before the wind. The captain fearing some one might be on board the hulk ordered two seamen to lower a boat and pull for the wreck. They found a man wasted to a skeleton and all but dead. When able to speak, his first words were, "There's another man." Saved himself he wished to save his companion. Let this be the spirit of the young men of this Association. There are many young men in our city wandering on the broad way to death, none caring for their souls. Young men! go where there are weeping ones and dry their tears; go where there are weary burdened ones and help bear their burdens; go where the moral lepers herd and waft on the air the name of Jesus. I look on the Young Men's Christian Associations as coworkers with the Church of Christ, and my prayer shall ever be, "God bless the Young Men's Christian Associations of our beloved land."

Mr. J. English then followed in a brief and able address, reviewing the history of Young Men's Associations in the past, and the good they have accomplished over the world.

After singing the hymn,

"Stand up my soul, shake off thy fears,"

the Rev. Mr. Close made a short address, referring to the great zeal and ardor of the young men, and was glad to see the old men being stirred up. As a citizen of Lawrenceville he was proud of the Young Men's Christian Association. In it are the elements of Union, which will soon bring Christians together. The reverend gentleman closed by an eloquent appeal to the young men to join the Association and to the mothers and sisters to bear a hand in the great work.

After a few parting words from the President the meeting adjourned with benediction by Rev. Mr. Close.

Personal.

We were much gratified with a call on Monday from Mr. Thomas Arnold, whom our readers will remember as engaged extensively in the slating business in this city from 1845 to 1866, when he relinquished the roofing business and engaged in mining the slate quarries of Lancaster and York counties, Pennsylvania. In the past year Mr. Arnold became extensively interested with a number of wealthy Philadelphians, stockholders in the Lake Superior and Mississippi Railway Company in a deposite of slate, supposed to be the largest in the United States, discovered on the line of the above Railway at a point 26 miles west of Duluth, and 128 miles east of St. Paul; for the development of these slate mines, a company has been incorporated under the name of the "Great Western Mining Company of Minnesota." A town has been laid out at the mines and is called *Thompson* in honor of one of its projectors Elgar A. Thompson, Esq., of Philadelphia. This town is made the county seat of Carlton county, Minnesota, at this point the Northern Pacific Railroad forms a junction with the Lake Superior and Mississippi Road, and uses its track thence to Duluth—Lots in the infant town of Thompson covered with the primeval forest are selling as high as $30 per foot front—from this point the Northern Pacific Railway pursues its way through the Red River settlements and along our northern border in close proximity to the Pembina settlements in Brittish Columbia, to its western terminus at Pugents Sound on the Pacific.

The Lake Superior and Mississippi Railway extends from Duluth on Lake Superior to one hundred and fifty-four miles west of the Mississippi at St. Paul. There remains but eight or ten miles of this road unfinished. It is expected to celebrate its opening about the middle of August.

Mr. Arnold describes the slate at Thompson as of very superior quality, and as the supply is practically inexhaustible, he expects to employ several hundred hands in the quarries and to supply all the cities and towns along the lakes, to the east, and on the Mississipci and Missouri rivers and their tributaries to the south and west. His large experience in this branch of business and his well known energy and perseverance render his selection as Managing Director of the Company, the best that could be made. We shall hear of him, we doubt not, within a few years, as the largest operator in slate mining in the world. May it be even so.

Revenue Receipts.

The following, as shown by the books at the U. S. Assessor's office, are the gross receipts from bridges, railroads and amusements during the month of June, 1870:

Base Ball.

The game of Base Ball played at Union Park on Saturday, July 16th, between the Atlantics, of this city, and the Coal City, of Allegheny, resulted in a decided victory for the former. The Coal City boys were unable to bat Brosey's balls, his pitching being very swift and effective, as the following score will show:

The Atlantics will play the Athletics on Monday, July 25th.

The Fire Alarm Telegraph.

The solicitor of the Leetonia Automatic Fire Alarm Telegraph Company has served a notice on the Allegheny authorities similar to that served on this city, relating to the use of the fire alarm, claiming that it is an infringement of his clients' patent. We understand that this is a retaliatory move upon Gamewell & Kennard, for their proceeding against said company in Cleveland. The matter in any event is of no great concern to the cities, as they have contracts with Kennard & Company, which will amply protect them.

Burnell's Museum.—White Cloud and his troupe—four performances daily. Two afternoon exhibitions, at ¼ to 3 and half past 4, for the especial accommodation of ladies.

THE COURTS.

Quarter Sessions—Judge Collier.

MONDAY, July 18.—Commonwealth vs. Simon Schuck indicted for selling liquor without license was the first case taken up. It appears that Schuck and Albert Noir, who occupied adjoining houses entered into partnership to keep a tavern, and took out a license to sell liquor. Subsequently the partnership was dissolved, and the business was conducted by Schuck in his portion of the house. Noir then made information charging Schuck with selling liquor without license. The defense claimed that the partnership license would protect them until the expiration of the time for which it had been taken out. There were three indictments and the jury returned a verdict of guilty on one and not guilty on the others.

Commonwealth vs R. L. Wilson indicted for selling liquor without license was then taken up. The defendant does business in this city as wholesale liquor dealer's purchasing agent, and was returned by the constable of the Fourth ward. The District Attorney did not claim a conviction and the jury returned a verdict of not guilty.

The next case taken up was that of the Commonwealth vs. Mary Hennies, indicted for larceny, J. Ballou prosecutor. The defendant was employed by the prosecutor to do washing, and after she had gone a number of articles of clothing were missed, some of which were afterwards found in a cess pool on the premises of the defendant.

Commonwealth vs. Matilda Ditmore, indicted for forcible entry and detainer. The prosecutor, Mr. Evans, it appears, rented a house from a Mr. Finch, who subsequently sold the house to the defendant, who, it is alleged, took forcible possession of the premises.

FATAL ACCIDENT.

A Woman Run Over by a Wagon and Instantly Killed.

An accident, if it was not a piece of carelessness, occurred in Birmingham yesterday, resulting in the death of Mrs. Fisher, an elderly lady residing on the South Side. About half-past one o'clock Mrs. Fisher attempted to cross Twelfth street near Carson, when an express wagon, owned by Charles Baumbaugh, came down the street at a rapid rate. One of the horses struck Mrs. Fisher and knocked her down, and before the driver could check his horses, one of the wheels passed over her head, killing her instantly.

Accidents of this character are becoming a too frequent occurrence, and we know of no more speedy way of preventing or putting a stop to them than by making an example of some of the persons through whose negligence or carelessness they are. Drivers in many instances, if we are to judge from their manner of driving, appear to think that they have an undisputed right to the street to the exclusion of all pedestrians, and go thundering along our crowded thoroughfares at such a rate of speed that persons on foot are in imminent danger of life and limb almost every time they attempted to cross the street.

It is the duty of a driver to see that he does no injury to either life or property with his team. His brains is to watch the street in front of him, and to see that he runs over no one, and he is responsible either in the criminal or civil court, and in some cases both of them, for any neglect of this duty, where accident or injury to life or property occurs.

We were unable to ascertain any particulars in this case, but speak of the matter generally. If the horses were not unmanageable and running away, there can be no excuse or palliation for his conduct, for no man has a right to drive a team of horses through a public thoroughfare where people are crossing and recrossing continually, at so great a rate of speed as to be unable to check them if need be to prevent accidents of such a character.

The coroner we learn has been notified and will hold an inquest on the body of Mrs. Fisher to-day.

The Drinking Fountain in Allegheny.

Designed and executed by the artist, Mr. Isaac Broome, of which it was stated in Monday's GAZETTE that it exhibited signs of premature decay, is defended by the artist himself in the annexed card, which in justice to his professional career we gladly publish.

EDITORS GAZETTE: Dear Sirs—I cannot, in justice to myself, pass over your remarks in reference to my Drinking Fountain, without some reply, particularly as those remarks have gone before the public and are calculated to create a very injurious impression towards my work and myself, which I am very sure you did not intend.

The cracks you speak of in the figure have been in from the first and what are called fire cracks, they are only superficial and not the result of decay. The material of which the statue is composed is a species of porcelain and no decay can take place, being more durable than granite and will last longer than the pyramids.

Those defects which are to a great degree unavoidable in the firing of so large a piece will not develop themselves more than they have done, and indeed so little concern did they give me that I thought it unnecessary to conceal them from the public eye, which might easily be done. None of the many works I have executed here have failed to bring me credit, and I have no fears of this one.

This statue is handled by as many as four or five thousand people some days, and indeed it is impossible to keep it clear; one thing I can assure you, that twenty thousand people per day cannot wear it out.

The Park Commissioners are entitled to credit for encouraging the enterprise of producing the first work of this kind in the United States.

Fused sillicates are the only materials which will withstand the action of our atmosphere, marble, bronze and most qualities of sand stone being subject to the same influences which affect those materials in the English cities.

I hope these remarks will have the effect of modifying your views and that you will give them the same publicity as those expressed in your journal of the 18th inst.

Respectfully yours,
ISAAC BROOME.
ALLEGHENY CITY, July 18, 1870.

Cry of "Mad Dog."

Considerable alarm prevailed on Ohio street, in the vicinity of the Diamond, yesterday, over what was considered the freaks of a mad dog. There is no doubt but that the dog behaved strangely, running backwards and forwards in a wild and unusual manner, but he showed no signs of madness. The cry of "mad dog" was raised and the streets were cleared in a twinkling. Officer McKnight let fly a shot at him, but strange to say, the dog passed through the fiery ordeal unhurt. A volley of stones followed the dog in his meanderings, striking him front and rear, but he heeded them not. Although we believe in the muzzling, or better still, in the annihilation of all dogs, why select John Clark's dog for a sacrifice sooner than any other man's. The secret of the matter is that the dog was only a little hilarious, only a little excited. He had been fighting a coon all morning, and was only out hunting for the same old coon for another encounter.

Smashed a Buggy.

Yesterday, the Wilson Brothers, proprietors of a livery stable, Allegheny, hired a horse and buggy to two men, named Isaac Baxter and Henry Lafferty. It is alleged that the parties got too big a load on, and of course proved unfit to manage the horse. They drove out to Lawrenceville pretty rapidly, and in their endeavor to turn a corner abruptly, the buggy was upset, and the inmates tilted out, and what proved more serious smashed the buggy, and skinned the legs and sides of the animal. The Messrs. Wilson got word of the mishap, and made an information against the parties before Alderman Bowden, on a charge of violating the provisions of the livery act. A warrant was issued and an officer dispatched, who had not proceeded far when he met the parties bringing the dilapidated buggy home. The matter was fixed, the parties giving bail to pay the costs and repair all damages.

CONFLAGRATION.

Extensive Fire in Allegheny—The Work of an Incendiary.

On Monday morning, between three and four o'clock, a fire was discovered in a stable belonging to James B. Jones, on the south side of Isabella street, near Anderson street, Allegheny. The fire originated in the hay loft, and had obtained considerable headway before being discovered. Owing to the combustible character of the building, the flames were not long communicating to a building used for storing rags, on the west side, and the adjacent frame buildings forming what is known as the Fourth ward tavern on the east side. The tavern was also owned by Mr. Jones, and was built in the shape of a double L, with the main front on Anderson street and the sides facing on River avenue and Isabella street. The extreme ends of the wing on Isabella street were occupied as tenants by Mrs. Gould and Mrs. Ross, and a small building adjoining the tavern on the River avenue wing was occupied by Mrs. Robinson. As soon as the flames communicated to the house occupied by Mrs. Gould, they spread with the rapidity of lightning, and as the tavern and tenements were all under one roof, the entire building was enveloped in flames. In less than eight minutes after the alarm had been given, the entire fire department was in service, but so rapid was the progress of the flames, that it was feared that the efforts of the firemen would be ineffectual in extinguishing them until the building was entirely destroyed. The well directed efforts, however, soon manifested themselves, and the main portion of the tavern building was saved, although the roof was burned and the wings entirely destroyed.

The inmates of Mrs. Gould's house were awakened by the flames bursting through the rear windows, and had barely time to escape. The furniture of the tavern and other tenements was all removed, although in a damaged condition. At the time the fire broke out there was a pony, two mules and a cow in the stable. The mules and the cow were roasted alive, but the pony was rescued after having been severely scorched. All the building, as well as the mules and cow belonged to Mr. Jones. The owner is at present absent in the country, and we could not ascertain his loss. He is insured for a considerable amount.

The fire was undoubtedly the work of an incendiary as no person had been in the stable since last evening. Some six weeks since an effort was made to fire the same premises. But for the efficient services of the firemen a most disastrous conflagration might have ensued as Boyle's lumber yard is immediately adjoining the stable on the west side.

The New Water Main in Allegheny.

For a number of years past the citizens and owners of property, on the upper side of the Second and Third wards, Allegheny, have complained of the insufficient supply of water in that section of the city. Being assessed the usual rate for water purposes, with only an inconsiderable share of its advantages, they had very great reason to complain. In case of fire, their property was at the mercy of the fiery element, and even for ordinary and domestic purposes, a large number are compelled to carry their water for over a square. The Councils, recognizing the justice of the claim for water, have had the matter before them to consider the best method of remedying the evil, and the differences of opinion on the subject have delayed action from time to time, and it is only within the present year that definite action has been taken. In August of last year the Water Committee reported a resolution which was adopted by Councils, which authorized the tapping of the basin on the north side, and the laying of twenty and twelve inch pipe from the basin along Villa street to Spring Garden avenue, along said avenue to O'Hara street, along O'Hara street to North avenue, along North avenue to James street, up James street to Hemlock street and along Hemlock street to Federal street. The laying of this pipe, it was thought, would accomplish temporarily the object for which it was designed, namely, give an increased supply of water to the citizens, but was not regarded as a permanent relief.

Work was not commenced until late in the spring, on account of the delay occasioned by the grading of Villa street, but when once under way has been carried forward with the characteristic energy usual to all matters entrusted to the superintendence of Wm. Paul, Jr., the present Superintendent of the water works. The pipe, with the exception of a point, between Heckelman's brewery, and Spring Garden avenue, from Federal street to the top of Basin Hill, has already been laid. It is thought that the work will be nearly, if not altogether completed, this week, and the citizens generally have reason to rejoice at the near approach to the fulfillment of their wishes. The cost of this improvement will not fall short of $35,000, but in view of the necessity and importance of the worth, that sum is only nominal.

County Sabbath School Association.

In accordance with a widely circulated call, a meeting was held yesterday at 12½ o'clock P. M., in the rooms of the Young Men's Christian Association, to consider the formation of a Sabbath School Association for Allegheny county. Some of our most noted Sabbath School workers were present, and a good deal of earnestness in the matter was manifested. On motion of T. K. Cree, Rev. Mr. Scovel was called to the chair. Mr. Scovel, on taking the chair, stated briefly the object of the meeting. He referred to the old organization, which was now a thing of the past, and attributed its want of success to a superficial and improper organization. The whole country ought to be districted into appropriate divisions, correspondence opened up with all the schools and all necessary statistics obtained. The gentleman closed by urging the great importance of a county organization.

T. K. Cree, Superintendent Y. M. C. A., stated that this proposed county organization had originated at the last State Convention at Harrisburgh, but that no definite plans had been suggested and the meeting to-day was held in order to perfect plans for a successful county organization.

Rev. Mr. Sloan moved that a committee on permanent organization be appointed from each of the evangelical denominations. The following named gentlemen were appointed: Thos. Bakewell, Rev. Alexander Clark, Thos. H. Rabe, Rev. Geo. P. Hays, Professor L. H. Eaton, Rev. E. T. Garrette, O. O. Philips, Robt. Carr, Rev. T. H. W. Stuckenberg, B. Wolf, Jr., H. K. Porter, Rev. A. McLaughlin and Jas. D. Carlisle.

The Chair suggested to the Committee the propriety of sending circulars to all the Sabbath schools in the county, and to appoint a Convention or Institute in the Spring.

Rev. Mr. McLaughlin said that as a representative of a country district he believed some organization of this kind was essential to the success of the schools in the country. He believed in going to work at once in effecting a permanent organization.

Professor Eaton, Mr. F. Woods, and other prominent Sabbath School workers made brief and pointed remarks, urging the claims of the Association for the meeting, after which the meeting adjourned to meet at the call of the Committee.

The Forgery.

James Crilly and Henry Ward, charged before the Mayor with forgery, on oath of J. D. Scully, Cashier of the First National Bank, an account of which we published yesterday morning, were before the Mayor yesterday for a hearing. The information also includes the name of John Barry, who has not yet been arrested.

John C. Barr, Esq., appeared for the prosecution, and Messrs. John Coyle and J. C. McCartay for defendants.

There were two informations, one for forging the name of Robert Coward to the $100 check, and the other for the $1,000 check.

Daniel Barr, paying teller of the bank, was sworn, and as we have already published his statement in substance it is unnecessary to repeat it.

Mr. Scully, the cashier of the bank, and Chief Hague were also sworn, and after hearing all the testimony the Mayor announced that he would require each of the prisoners to give bail for Court, in the sum of $2,000 on the $100 check and $3,000 on the $1,000 check. The counsel talked of having the bail reduced in Court. The prisoners were committed.

Beautiful Masonic Chromos.

W. G. Dunseath, the jeweller, No. 56 Fifth avenue, Pittsburgh, has been appointed agent for the sale of the chaste and beautiful chromo entitled "Washington presiding over a meeting of the Lodge" at Alexandria, convened preparatory to the laying of the corner stone of the National Capitol. The conspicuous figure, that of the Father of his country, in full regalia, is brought out boldly, and is in itself a very correct and faithful portrait. In the back-ground are full likenesses of R. H. Lee, Bishop White, of Pennsylvania, Ben. Franklin, Robert Morris, John Mountz, Benj. Harrisson, Roger Sherman, Thomas Jefferson, George Wythe and James Thompson. The chromo will find admirers among all members of the Masonic Order, and it will become popular, inasmuch as it is sold at a very reasonable price. Call and see this beautiful chromo.

Eckman vs. Browski.

Rachel Browski and Mary Eckman each represent the maternal head of families, who have an interest in common with each other. Browski has no rights that Eckman is bound to respect an *vice versa*. Cross suits were preferred before His Honor, Mayor Brush yesterday. Mary Eckman made information against M. Browski for surety of the peace, alleging that the accused threatened to kill her. Rachel Browski preferred a charge of assault and battery against Mary Eckman, alleging that the accused hit her with a piece of coal. Also another similar charge against the same deponent, alleging that she pushed and hauled her about. M. Browski also preferred a charge of assault and battery against Henry Eckman, alleging that the accused struck Rachel Browski. The parties live on Wylie street. The accused all gave bail for a hearing.

Personals.

OUR young and esteemed friend, Mr. Geo. W. Pittock, will leave the city to-day for Portland, Oregon, where he will take up his residence to "push his fortune." George has a whole host of friends in this, his native city, who will anxiously watch his career in his new sphere of action. He has our best wishes and we hope he may meet with that success he is so eminently deserving.

HON. JAMES BLACKMORE is not an aspirant for Congressional honors at the hands of the Democracy. He proposes to run as an independent candidate to succeed Mayor Brush.

Burnells Museum—The only place of amusement in the city.

"Listen to the Mocking Bird" no More.

Our neighbor, living on Tunnel street, was last spring presented with a mocking bird, which proved to be a delightful singer, and persistent in his efforts. Early in the morning, during the day and in the evening he would delight all those who heard him, with his sweet singing. In the midst of his warbling on Sunday morning last, a discordant note was heard, and the owner who had been all attention, looked toward the cage, to ascertain the cause of the discord. The bird was on its back, fluttering in its death throes, and in an instant life was extinct. Anxious to learn what caused the death of his bird, he repaired to a surgeons office, when upon examination the physician ascertained that the heart had bursted, and gave his opinion that it was caused by over exertions and a rush of blood to the heart. The loss is severe, the owner having declined an offer of one hundred and fifty dollars for him on Saturday last.

France Against Prussia.

The first engagement between France and Prussia, of which we have any reliable information, took place yesterday afternoon and resulted in the defeat of the French, notwithstanding they had the numerical advantage of two to one in the engagement. The battle to which we allude occurred in a saloon on Smithfield street, yesterday, between a Prussian and two Frenchmen. It appears they went in the saloon and undertook to discuss the situation of affairs in Europe, and the discussion resulted in a hand to hand conflict, both making an attack upon the Prussian. The latter by a piece of strategy or some other means conquered his antagonists and held the field.

A battle between the same opposing nations took place in Birmingham under similar circumstances and resulted in favor of the Prussian.

Congressional Conference.

The Republican Congressional conferees from the several counties composing the 21st District, will meet at the Monongahela House to-day for the purpose of placing in nomination a candidate for Congress for that district. The district embraces Fayette, Westmoreland and Indiana counties, and each county presents a candidate. The following named gentlemen compose the conference: Fayette—Jacob B. Miller, Esq., Wm. Parshall, Esq., and Uriah Higinbotham. Westmoreland—Gen. C. P. Markle, Col. A. A. Johnson, and J. W. Moorhead. Indiana—Hon. J. R. Thompson, J. P. Blair, Esq., and Samuel M. Hazlett, Esq.

The aspirants for this position, now filled by Hon. John Covode, are G. W. K. Minor, Esq., of Fayette; J. A. Logan, Esq., of Westmoreland, and A. W. Taylor, of Indiana.

Resulted Fatally.

The little girl named O'Brien, seriously scalded on Saturday, notice of which appeared in Monday's issue, lingered in great agony until yesterday, when death ended the pain of the little sufferer.

James Burke, who fell over a wall on Grant avenue, Allegheny, on the 5th instant, died yesterday morning at his residence on Barnett alley from the effects of the injuries received.

Business Card.

Mr. J. R. Newell desires to inform the public that he has not severed his connection with the Newell Institute.

He designs to have the Institute chartered, and to furnish every facility for obtaining a liberal and *thorough* education.

EDITORS GAZETTE: Please insert this to-morrow:

The well-known missionary Melford Herndon, from West Africa, is in the city to close his mission in the United States. He has undertaken to raise $2,000, of which he has deposited in New York and Philadelphia $1,100, and in Pittsburgh $100. As he must get ready to sail for the burning shores of Africa by the first of November, he has more business than he can attend to. He calls on all who are friends to the poor natives of Africa to aid him. He feels thankful to say that two ladies have sent him seven dollars and one gentleman $50.

Any sum, from one penny to one hundred dollars, will be gladly received at the book store, No. 96 Fourth avenue, Pittsburgh.

The Prettiest Woman in New York. Miss K——, well known in our fashionable society for her *distingue* appearance and beautiful complexion, was once a sallow, rough-skinned girl, chagrined at her red, freckled face. She pitched into Hagan's Magnolia Balm, and is now as pretty in complexion as she is charming in manners. This article overcomes freckles, tan, sallowness, moth-patches, ring-marks, etc., and makes one look ten years younger than they are. Magnolia Balm for a transparent complexion, and Lyon's Kathairon to make the hair plentiful, luxuriant, soft and delicate, have no rivals. The Kathairon prevents the hair from turning gray, eradicates dandruff, and is the best and cheapest dressing in the world. TTHS.

A Sharper.—Isadore Groves, or a young man travelling under that name, who for some days past has been boarding at the St. Clair Hotel, left town, suddenly forgetting to settle his board bill. Before leaving he went to Mr. Young, of the firm of Young & Bell, and stating that the proprietor of the hotel had sent him to borrow a horse and wagon. They were given to him, and he abused the horse in a shameful manner. Mr. Young made information before Alderman McMasters charging Groves with a violation of the livery stable act. A warrant was issued, but the accused had, as before stated, taken his departure.

Aid to Prussia.—The Germans of this city will hold a grand mass meeting at Turner Hall for the purpose of raising funds for the Prussians. It is the intention, we learn, to raise one million dollars as a sanitary fund for the Prussian army in this country, and Pittsburgh is not going to be hindmost in the work. The several singing societies are requested to meet at their respective places of meeting this evening, to make arrangement for a grand concert in aid of the movement, and also to make arrangements to attend the mass meeting.

Charged with Larceny.—Mollie Brooks was the prosecutrix yesterday afternoon, before Alderman Bowden, Allegheny, against a colored girl named Jennie M'Cune on a charge of larceny. It is alleged that the colored girl appropriated a valuable piece of under clothing belonging to Mollie. The article was valued at twenty-five dollars, and abounded in lace ruffles. The heinousness of the offense consisted in its being worn by the colored female. Copious tears were shed, the goods returned, prosecutrix declined to prosecute, and thus endeth the first chapter.

Sudden Death.—Alexander Dixon, formerly employed at Sellers & Co's, at the corner of Penn and Wayne streets, died suddenly yesterday at his residence, 44 Basin alley. He had an attack of cramps on Saturday, and on Sunday had so far recovered as to be walking about. On Monday morning he had a second attack, and Dr. Duncan was sent for, and did all that was possible for the man, but to no purpose, as he expired about eleven o'clock.

The Red Men of the Forest, at Burnell's Museum.

Another serious accident occurred yesterday, the result of careless driving. William Wier, a drayman, while walking across Washington street at Webster avenue, was knocked down and run over by a two horse carriage. The wheels passed over his body just above the hips, inflicting serious internal injuries. He was removed to his residence in the rear of 107 Webster avenue.

Shooting Affray.—The notorious Barney Duffy, and another man whose name we could not learn, got into a difficulty on Second avenue in Pipetown last night, when the latter drew a revolver and fired at Duffy, the ball taking effect in one of his fingers. The police hearing the row closed in on the belligerent pair, and conveyed them to the lock up.

Larceny.—Fred. Maedar made information before the Mayor yesterday, charging William Gallagher with larceny. Deponent was at the public bath house in the Allegheny river, and while he was bathing, he alleges that Gallagher stole his pocket book, containing $28.35. The accused was arrested and locked up for a hearing.

Henry G. Hale, Merchant Tailor, has just received a large assortment of linens and alpaccas, also a complete assortment of goods for summer wear generally, corner Penn avenue and Sixth street. tf

Dedication of the Methodist Church.

[Correspondence of Pittsburgh Gazette.]

NEW BRIGHTON, July 18, '70.

The above church was yesterday set apart to the worship and service of the great Creator, Preserver, Benefactor and Redeemer of the race.

Dr. Collier preached at 10½ A. M., of the Superiority of the Christian over the Mosaic dispensation.

Dr. Reeves preached at 3 P. M. on Sectarianism, justifying a plurality of denominations. The Lord's Supper was administered, the members of the different denominations mingling together at the table of our common Lord. It is

> "—pleasant thus to dwell below,
> In fellowship of love."

At 8 P. M. Rev. Griffith, of Youngstown, Ohio, preached on Finished Redemption. Revs. Burns, Crowther and Hodgkinson, of the Methodist Church, and Revs. Roller, of the M. E. Church, and Dilworth, of the Presbyterian Church, were present part of the day and participated.

The church and lot are estimated at $6,000 at least, all of which is either paid or promised but about $1,000. There was very little begging done. Free-will offerings were cheerfully accepted.

It is certainly a very neat and desirable house of worship. Everybody seems pleased with it, as they should be. It is pleasantly located at the base of the "Mound," on a principal street, and about half a mile from either of the other churches.

The people of Beaver Falls have thus far manifested a liberal spirit in the matter of erecting churches, helping each other. This is right. We should help each other, and so fulfill the law of Christ.

May they all be abundantly successful in their endeavors to do good.

Yours, &c., C.

THE latest egg story comes from Clinton, Iowa, where a local paper relates how a lady dropped an egg into a flour barrel a few weeks ago, forgetting the incident altogether, until a few days ago, when she was surprised by the peeping of a chicken, which had hatched from that identical egg. The hot weather had done the business, and the chicken is alive and doing well.

WHAT'S the reason that every one asks for Pier, Dannals & Co.'s cream ale? Because every one knows that it is just what it is "cracked up" to be.

PROPOSALS.

PROPOSALS FOR

Stamped Envelopes and Newspaper Wrappers.

POSTOFFICE DEPARTMENT, July 11, 1870.

SEALED PROPOSALS will be received until 12 o'clock M., on the 11th DAY OF AUGUST, 1870, for furnishing all the "Stamped Envelopes" and "Newspaper Wrappers," which this Department may require during a period of four (4) years, commencing on the 1st day of October, 1870, viz.:

STAMPED ENVELOPES.

No. 1. Note size, 2¾ by 5¼ inches—two qualities.
No. 2. Ordinary letter size, 3 1-16 by 5½ inches—three qualities.
No. 3. Full letter size, 3¾ by 5¾ inches—three qualities.
No. 4. Full letter size, (for circulars,) ungummed on flap, 3⅜ by 5¾ inches—one quality.
No. 5. Extra letter size, 3⅝ by 6⅛ inches—three qualities.
No. 6. Extra letter size, 3⅝ by 6⅛ inches, (for circulars,) ungummed on flap—one quality.
No. 7. Official size, 3 15-16 by 8⅝ inches—two qualities.
No. 8. Extra official size, 4¾ by 10⅜ inches—one quality.

STAMPED NEWSPAPER WRAPPERS.

Six and a five-eighths by 9¾ inches (round cut,)—one quality.

EMBOSSING, WATER MARKS, PRINTING, RULING, PAPER, STYLE OF MANUFACTURE.

All of the above Envelopes and Wrappers must be embossed with postage stamps, of such denominations, styles and colors, must have such watermarks or other devices to prevent imitation, and bear such printing and ruling as the Postmaster General may direct. The envelopes must be made in the most thorough manner, equal in every respect to the samples furnished to bidders by the Department. The paper must be of approved quality, specially manufactured for the purpose. Whenever envelopes are ordered of the styles known as "Black-lined" or "Self-ruled," (lines printed inside or ruled on the face) the same shall be furnished without additional cost, the contractor to pay all charges for royalty in the use of patented inventions for said lined or ruled envelopes.

DIES.

The dies for embossing the postage stamps on the envelopes and wrappers are to be executed to the satisfaction of the Postmaster General, in the best style, and they are to be provided, renewed, and kept in order at the expense of the contractor. The Department reserves the right of requiring new dies for any stamps or denominations of stamps not now used, and any changes of dies or colors shall be made without extra charge.

Before closing a contract the successful bidder may be required to prepare and submit new dies for the approval of the Department. The use of the present dies may or may not be continued.

The dies shall be safely and securely kept by the contractor, and should the use of any of them be temporarily or permanently discontinued, they shall be promptly turned over to the Department, or its agent, as the Postmaster General may direct.

GUM.

The envelopes must be thoroughly and perfectly gummed, the gumming on the flap of each (except for circulars) to be put on by hand not less than half an inch the entire length; the wrappers to be also hand-gummed not less than three-fourths of an inch in width across the end.

SECURITY FROM FIRE AND THEFT.

Bidders are notified that the Department will require, as a condition of the contract, that the envelopes and wrappers shall be manufactured and stored in such a manner as to insure security against loss by fire or theft.

The manufactory must at all times be subject to the inspection of an agent of the Department, who will require the stipulations of the contract to be faithfully observed.

PACKING.

All envelopes and wrappers must be banded in parcels of twenty-five, and packed in strong pasteboard or straw boxes, securely bound on all the edges and corners with cotton or linen cloth glued on, each to contain not less than two hundred and fifty of the note and letter sizes, and one hundred each of the official or extra official size, separately. The newspaper wrappers to be packed in boxes, to contain not less than two hundred and fifty each. The boxes are to be wrapped and securely fastened in strong manilla paper, and sealed, so as to safely bear transportation by mail for delivery to postmasters. When two thousand or more envelopes are required to fill the order of a postmaster, the straw or pasteboard boxes containing the same must be packed in strong wooden cases, well strapped with hoop-iron, and addressed; but when less than two thousand are required, proper labels of direction, to be furnished by an agent of the Department, must be placed upon each package by the contractor. Wooden cases, containing envelopes or wrappers, to be transported by water routes, must be provided with suitable water-proofing. The whole to be done under the inspection and direction of an agent of the Department.

DELIVERY.

The envelopes and wrappers must be furnished and delivered with all reasonable dispatch, complete in all respects ready for use, and in such quantities as may be required to fill the daily orders of postmasters; the deliveries to be made either at the Postoffice Department, Washington, D. C., or at the office of an agent duly authorized to inspect and receive the same; the place of delivery to be at the option of the Postmaster General, and the cost of delivering, as well as all expense of storing, packing, addressing, labeling and water-proofing to be paid by the contractor.

SAMPLES.

Specimens of the envelopes and wrappers for which proposals are invited, showing the different qualities and colors of paper required, the cuts, and style of gumming, with blank forms of bids, may be had on application to the Third Assistant Postmaster General.

This advertisement and a specimen of the sample envelopes and wrapper furnished by the Department must be attached to and made part of each bid.

GUARANTEE.

No proposal will be considered unless offered by a manufacturer of envelopes, and accompanied by a satisfactory guarantee signed by at least two responsible parties.

AWARD—AGREEMENT—BONDS.

The contract will be awarded to the lowest responsible bidder for all the envelopes and wrappers, the prices to be calculated on the basis of the number used of the several grades during the last fiscal year, which was as follows:

Note size	1,468,250
Letter size, first quality	60,467,500
Letter size, second quality	8,956,750
Letter size, second quality (ungummed)	3,618,000
Extra letter size, first quality	5,815,750
Extra letter size, second quality (ungummed)	454,000
Official size	569,900
Extra official size	3,100
Newspaper wrappers	4,936,250
Total	86,289,500

Within ten days after the contract has been awarded the successful bidder shall enter into an agreement in writing with the Postmaster General to faithfully observe and keep the terms, conditions, and requirements set forth in this advertisement, according to their true intent and meaning, and shall make, execute, and deliver, subject to the approval and acceptance of the Postmaster General, bonds with good and sufficient sureties in the sum of Two Hundred Thousand Dollars ($200,000) as a forfeiture for the faithful performance of said agreement or contract according to the provisions and subject to the liabilities of the seventeenth section of an act of Congress entitled "An act legalizing and making appropriations for such necessary objects as have been usually included in the general appropriation bills, without authority of law, and to fix and provide for certain incidental expenses of the Departments and offices of the Government, and for other purposes." (United States Statutes at Large, vol. 5, page 256,) approved August 26, 1842; which act provides that in case the contractor shall fail to comply with the terms of his contract, "he and his sureties shall be liable for the forfeiture specified in such contract as liquidated damages, to be sued for in the name of the United States, in any court having jurisdiction thereof."

RESERVATIONS.

The Postmaster General reserves to himself the following rights:

1. To reject any and all bids, if, in his judgment, the interests of the Government require it.

2. To annul the contract whenever the same or any part thereof is offered for sale for the purpose of speculation; and under no circumstances will a transfer of the contract be allowed or sanctioned to any party who shall be, in the opinion of the Postmaster General, less able to fulfill the conditions thereof than the original contractor.

3. To annul the contract, if, in his judgment, there shall be a failure to perform faithfully any of its stipulations, or in case of a willful attempt to impose upon the Department Envelopes or Wrappers inferior to sample.

4. If the contractor to whom the first award may be made should fail to enter into agreement and give satisfactory bonds, as herein provided, then the award may be annulled and the contract let to the next lowest responsible bidder, and so on until the required agreement and bonds are executed; and such next lowest bidder shall be required to fulfill every stipulation embraced herein as if he were the original party to whom the contract was awarded.

BIDS

Should be securely enveloped and sealed, marked "Proposals for Stamped Envelopes and Newspaper Wrappers;" and addressed to the Third Assistant Postmaster General, Washington, D. C.
